SR-73 Public Open House Comment Form

How did you learn about this open house?

- ☐ City Utility/Newsletter
- ☐ Friend or Neighbor
- ☐ Mailed/Electronic Mailed Notice
- ☒ Newspaper, Radio, or TV
- ☐ Other_____

Where do you live?

- ☐ Cedar Fort
- ☒ Eagle Mountain
- ☐ Fairfield
- ☐ Ophir
- ☐ Saratoga Springs
- ☐ Other_____

Was the information presented in a clear and understandable manner?

- ☐ No
- ☒ Yes

Do you feel the area's transportation needs are being met? If no, please explain.

- ☒ No
- ☐ Yes

Not at all! I understand that there are processes and timing issues for these projects. But after 8 years of traveling from Eagle Mountain through Lehi I am beyond frustrated.

What specific concerns or problems do you see or anticipate on SR-73?

Not only do I foresee future automobile accidents as time goes on, but the delay in home construction because of the frustrated potenial buyers in the area.

What other comments do you have about SR-73?

I think public ~~[illegible]~~ input needs to be addressed. The public needs to be made aware of who to contact for their concerns.

Thank you for your cooperation and trying to accomodate the needs for the public.

Please fill out the form and leave it in the box or take it home and mail back to us at the either of the addresses below. Also, for additional comments, questions, or suggestions please contact:

Vern Keeslar, AICP

Do you feel the area's transportation needs are being met? If no, please explain.

- ☐ No
- ☒ Yes, but won't be in the future

What specific concerns or problems do you see or anticipate on SR-73?

the road is dangerous i.e. two lane → head on accident. the construction will require lower speeds and create commuter angst. Please keep commuters well informed.

What other comments do you have about SR-73?

Please fill out the form and leave it in the box or take it home and mail back to us at the either of the addresses below. Also, for additional comments, questions, or suggestions please contact:

More groth than there are roads. poor planning

What specific concerns or problems do you see or anticipate on SR-73?

More conjestion, costly repairs that should be spent on problem solving. (Makeing road wider)

What other comments do you have about SR-73?

~~dol~~ do the job sooner so that money is spent wiser, & costs are Lower.

Growth is coming faster than we can build adequate roadways.

What specific concerns or problems do you see or anticipate on SR-73?

As long as they allow the current growth rate, we are going to have transportation problem. (Look at Lehi)

What other comments do you have about SR-73?

The trash along the highway is terrible. Please put identification on trucks that you can read – then maybe we can turn them in when we see garbage flying out of their trucks.

Slow down the growth + it will solve alot of problems.

Secondary access to SR68 ~~and~~ from Eagle Mt. is poor. Pony Express access needs to be improved now to release the mess at the cross roads. Normal traffic on SR 73 is consistantly backed up by 100 cars from the Ranches to the cross roads in the morning. In bad weather it is backed-up past the new stop light in the morning.

What specific concerns or problems do you see or anticipate on SR-73?

In the morning, beginning about a mile from the cross roads, cars/trucks use the center lane to turn north on SR68. They use the area on the right side to turn south beginning about a half mile from the cross roads. Please consider restriping that mile to safely allow the 3 lanes of traffic.

What other comments do you have about SR-73?

Expand the 10th South study to include the section of SR 73 just to the west of the cross roads. I would like to see the 10th South access begin where the Mountain View Corridor highway was going to cross SR 73 (West) The problem is at the cross roads. Beginning the 10th South access on the east side of the cross roads does not solve the congestion created with all the new commercial/retail properties. It also ruins the nice looks of the Saratoga Springs commercial district to have the highway dead end into the area.

But "years" seems painfully long to start
We need the Campwins – Saratoga Spgs widening now
+
the American Fork to Saratoga Spgs now

What specific concerns or problems do you see or anticipate on SR-73?

1) SAFE on + off from residential communities
2) A DIVIDER (cement abutment) between 2 way traffic especially from SS light to top of pass to Eagle Mtn. where traffic is going 70 MPH with only inches apart.
3) "CROSSROADS" OF Harvest Hills rd to Saratoga communities (1/2 way up hill from SS lt to top of Hill) needs SAFER TURN OUTS/TURN Lane from W to N.

What other comments do you have about SR-73?

How CAN A COMMUNITY AVOID the PLACE WHERE WE'RE AT? Developers BUILD & BUILD & BUILD
CITIES COLLECT Huge Bldg PERMITS
DOT COLLECTS ROAD TAXES
+ We don't have SAFE ACCESS TO OUR HOMES FOR STILL years.

The presentor told me UDOT owns SR73 but they don't plan for it MAG does, but MAG just offers recommendations. I am concerned UDOT is not aggressivly addressing SR73 traffic issues. As I am sure UDOT is aware our median population is 13yrs. old! Too many young childre and parents of young children are on that road to not take immidiate action. As a matter of life/health/safety I would like to see more than the- It's their fault for building there

What specific concerns or problems do you see or anticipate on SR-73?

The biggest problem is the road is not adiquite to accomodate the amount of traffic on it. In five years my commute from City Hall in EM to I-15 in Lehi has increased from 20 min to up to 45 min. I am terrified to think of what the next 5 yrs will bring! When dealing life/health and safety issues money has to be allocated and the studies have to be quick and precise. The round about in Lehi is really slowing traffic in all directions. Drive education may also help in the mean time. - Some drivers don't know how to use a round about, don't know how to merge and may not be seeing signs noting 'keep left except to pass.'

What other comments do you have about SR-73?

The time to get out of the City is a huge inconvienience, but my biggest concern is the safety and welfare of people. I don't understand how the gov't can not find or allocate money when the issue is dealing with peoples lives. I really wish there was more info about why UDOT or State Gov't can not make it work.

On another note the median on SR73 directly south of SR68 is confusing and dangerous. Thanks for the opportunity to make comments.

Please fill out the form and leave it in the box or take it home and mail back to us at the either of the addresses below. Also, for additional comments, questions, or suggestions please contact:

SR-73 needs ~~[illegible]~~ widening. It needs immediate attention. A 2-lane road that carries as much traffic as it does would be an outrage anywhere else. ~~Utah County~~ Northern Utah County is growing more than the projected growth suggested.

What specific concerns or problems do you see or anticipate on SR-73?

Traffic jams. Traffic stalls. The road is simply to small for the capacity it holds. Immediate attention needed.

What other comments do you have about SR-73?

Widen it immediately! It doesn't need a future plan, it needs a "NOW" plan. It is the worst road in all of Utah.

Please fill out the form and leave it in the box or take it home and mail back to us at the either of the addresses below. Also, for additional comments, questions, or suggestions please contact:

What specific concerns or problems do you see or anticipate on SR-73?

There are school zone lights but no sidewalks. I think there needs to be sidewalks for students as well as more lights for early morning students. Maybe put in over head school zone lights in the 20 mph zone.

Also the crosswalk west of the junior high ... can we put in some lights ... the flags aren't going to work much longer.

We need something quick. To many people moving in compared to death. We have discussed this 5yrs ago and still in decussion stage.

What specific concerns or problems do you see or anticipate on SR-73?

More cars impact with impatient people causing fatalities.

Short impact ~~would~~ would help to wide road leading to stop light at the ranches so you have a longer turn only lane and then a through lane.

What other comments do you have about SR-73?

Widen SR73 from Eagle Mtn through to the cross roads or to the Willowsprings JR High

SR73 needs to be widened. There is a 2hour wait for residents coming home each night. That is not acceptable

What specific concerns or problems do you see or anticipate on SR-73?

traffic congestion on SR73 / SR68
We need to widen the road or get another alternative route.

What other comments do you have about SR-73?

Please please help us fix this problem
With the growth rate, it's only going to get WORSE!! Thanks :)

We need this road upgraded now!

What specific concerns or problems do you see or anticipate on SR-73?

I don't want to see it become a Bangeter Hwy. I would rather plan ahead and put in freeway type entrances and exits.

What other comments do you have about SR-73?

The bottleneck where SR-73 meets Redwood is a serious problem, especially in bad weather. Also, the median by Smiths and McDonalds was poorly planned, is unsafe, stops traffic, and needs to be removed.

Please fill out the form and leave it in the box or take it home and mail back to us at the either of the addresses below. Also, for additional comments, questions, or suggestions please contact:

- ☒ No
- ☐ Yes

With the population increasing rapidly in this area we need proactive planning for the future and the ability to get to I15 on more than one main artery.

What specific concerns or problems do you see or anticipate on SR-73?

I'M already seeing traffic backed up from the traffic signal in Eagle Mountain all the way to I15 during peak traffic times. My concern is it will very soon come to a standstill on a regular basis and create angry people and a negative feeling about our region. As the 4th fastest growing city in Utah last year with a population of about 20,000 people, I think we deserve some attention.

What other comments do you have about SR-73?

Anything that can be done to expedite some relief here would be appreciated.

If we could widen the road, that would be a start.

If it was possible to provide an artery to I15 north of SR73, that would help as well. I'd be willing to drive a bit north, then head south if it saved me being stuck in congestion on SR73.

Please fill out the form and leave it in the box or take it home and mail back to us at the either of the addresses below. Also, for additional comments, questions, or suggestions please contact:

SR 73 & SR 68 is a bottleneck

What specific concerns or problems do you see or anticipate on SR-73?

Keep it limited access. Go for EM's vision of eventual freeway. We do not want a Bangerter.

What other comments do you have about SR-73?

Add a second lane from SR 68 ~~to~~ thru to EM's area.

Please fill out the form and leave it in the box or take it home and mail back to us at the either of the addresses below. Also, for additional comments, questions, or suggestions please contact:

Udots studies & approval requirements need to be streamlined from the Governor down you can't possibly support the huge influx of people moving into the Utah County area.

What specific concerns or problems do you see or anticipate on SR-73?

From Eagle Mountain town center east on 73 is already traffic log jambed & we don't or won't have relief for 6 years. We need alternative roads around Red Wood road. Saratoga Springs cross roads immediately. What happened to the Mountain View Corridor Plan. Build a road from Camp Williams south on 68 to SR 73 west of Saratoga Springs. Development up by the pure line easements are [illegible] to fight traffic while its being built.

What other comments do you have about SR-73?

Request UDOT see that the trash is cleaned up between Utah Valley & Fairfield along Highway 73. The State insisted on the landfill approval in Fairfield & they should see that the highways are clean.

Please fill out the form and leave it in the box or take it home and mail back to us at the either of the addresses below. Also, for additional comments, questions, or suggestions please contact:

UDOT is like 6 years behind. There should have been a Freeway plan befor all the growth was allowed

What specific concerns or problems do you see or anticipate on SR-73?

To much trafic Now for a rural Rd bottle neck at redwood & hwy

What other comments do you have about SR-73?

The Southern route freeway proposal looks good & would clear trafic Would also give Utah County a overdue extra emergency Route

I like the "arterials" plan the best because it seems like it would break up traffic more by providing different options for us depending on what direction we're headed. It also seems like it would be less expensive than the other options or at least we would get more options for the money.

You have a lot of projects. One thing to think is when you do big projects like Redwood Road or SR 73 expansion maybe try & get some other projects done to divert the traffic, so those projects don't bottle neck everyone & really jam up county roads & residential areas. Good luck you have a big project on your hands. It is good to know/someone is working on it.

I feel the arterials proposal offers the 'biggest bang for the buck'. From what I see it seems to be a good compromise between the 2100 North and the Southern Freeway proposals. Personally I would use a southern freeway more than the 2100 North, but I feel the arterial proposal meets more of the populations needs and mitigates concerns of those living in the areas of proposed freeways running East/West.
