Attention: Mr. Blaine J. Kay

Dear Mr. Helland:

On April 18, 1969 the State Road Commission designated the driver's test course at the Utah State Fairgrounds as State Route 297 (the purpose being for snow removal).

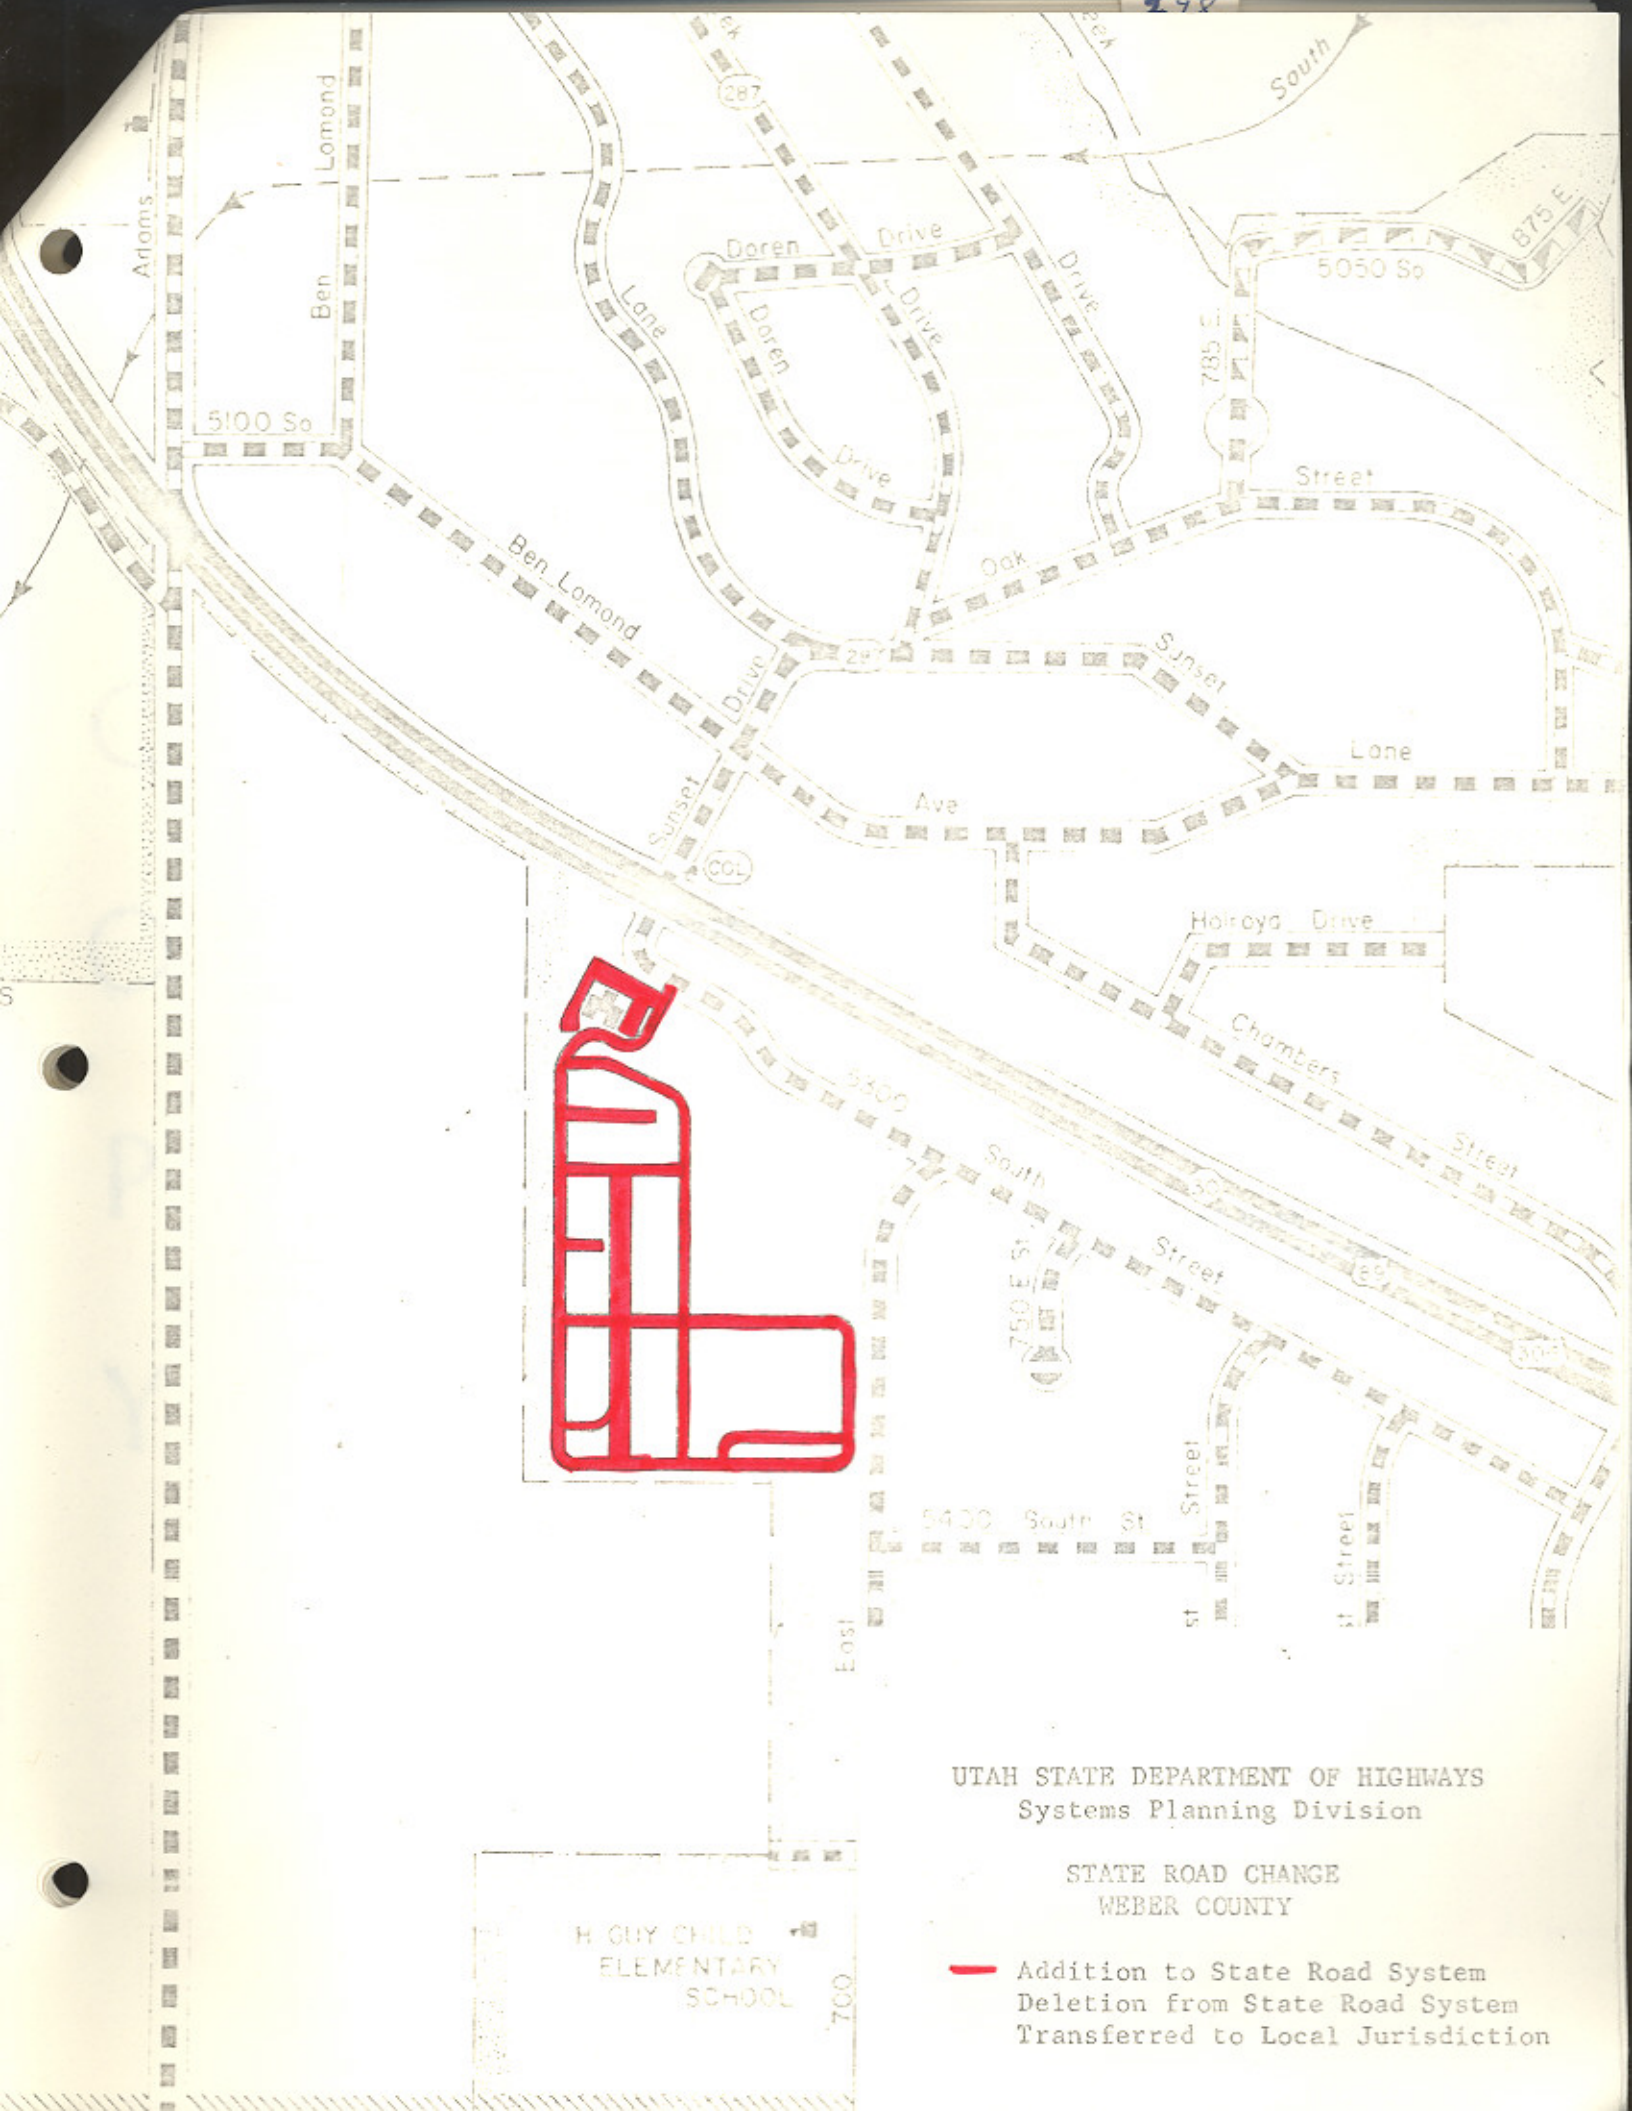

We now have a driver testing course at the Browning Armory area in Weber County and will need your services for snow removal. For us to request sufficient monies in the budget and then contract with the Department of Highways for snow removal service would cause additional book-keeping and inter-account billing. This seems needless, in that any funding for the service comes from the same course.

I am writing to see if the State Road Commission would designate the driver testing course in Weber County as part of the state road system. I would appreciate it very much if you would discuss this with the Commissioners and obtain their views.

Sincerely,

Raymond A. Jackson
Commissioner
