

School Name:

Dear Neighbors,

Our neighborhood is beginning a Walking School Bus Program to increase the number of children who walk to and from school. The Walking School Bus program will help to:

- Get more children and adults physically active by walking to and from school
- Make it safer for children and adults to walk in the neighborhood
- Reduce traffic in our neighborhood and around the school
- Help neighbors get to know one another better

Children will walk as a group, supervised by an adult, to and from school starting _____, weather permitting.

If you are interested in having your child participate or volunteering to walk with children to school, please contact:
