

Public Meeting # 3 Preliminary Design Information

The attached maps contain information shown at the recent project public meeting. They are preliminary in nature. Final commitments on planning elements will be made as part of the project environmental documentation process anticipated to be completed in the fall of 2009. Associated information such as typical sections was also provided for context. Please [contact](#) project team members should you have questions or comments.

Due to the size of the map, it has been broken down into sections A-N. Click on the "Letter" corresponding to the approximate location you would like to view. Please note, that the map shows two separate views:

- Roadway & Landscape View
- Line Drawing of Proposed Roadway Elements (Over a recent aerial map)

Additional information on widths and features can also be seen on the typical section details. Click here for the section details:

- [Undeveloped Typical Section](#)
- [Commercial Typical Section](#)
- Residential Typical Sections
 - [800 South to 600 South](#)
 - [600 South to 200 South](#)
 - [200 South to 200 North](#)

The attached maps are property of the Utah Department of Transportation. As such, they may not be duplicated or transmitted in any form including but not limited to, printed or electronic means, without the express written permission of the Director of Region One of the Utah Department of Transportation.
