February 11, 2020

MEETING AGENDA

Welcome

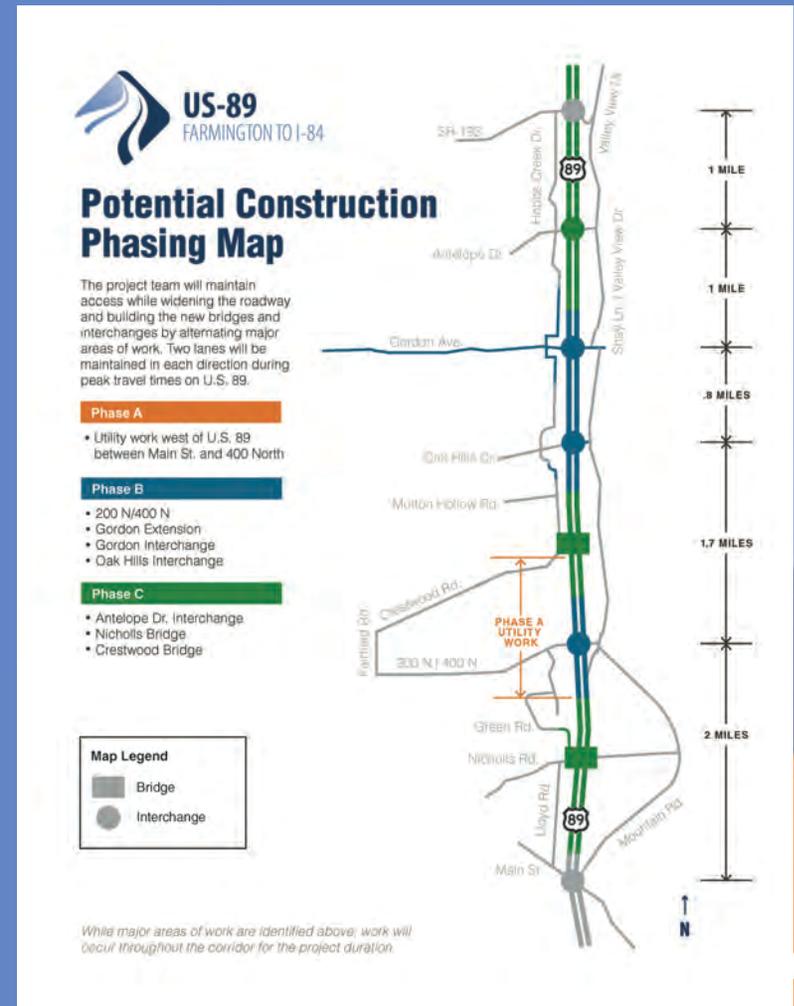

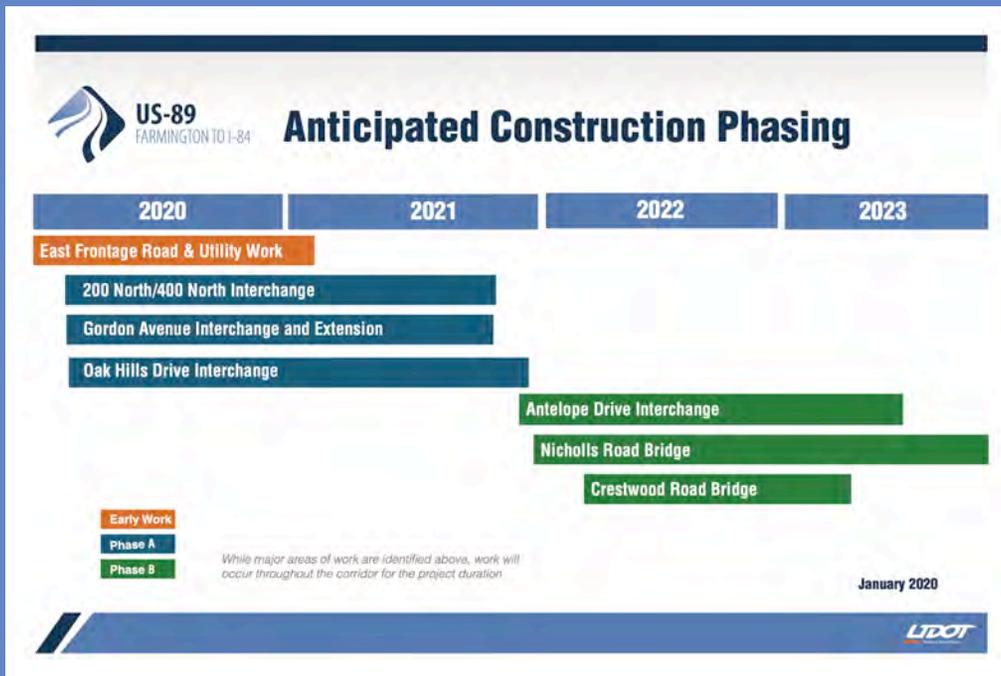

Construction Phasing & Impacts

- Overall Project Phasing
- 200 N/400 N Fruit Heights

Public Outreach and Communication Channels

Q+A

CONSTRUCTION PHASING

CONSTRUCTION PHASING AT 200/400 NORTH

Phase 0: Current through May

Phase 1: April through December 2020

Phase 2: Early spring through late summer 2021

Residents should expect:

- Day & night work
- Noise, dust, vibration & light
- Additional trucks and equipment
- Changes in access
- Narrow and shifting lanes
- Maintain existing speed limit (55 MPH)

****The graphic below shows areas of work in blue and traffic changes in green. No major traffic changes are planned on U.S.89 in this phase.**

PHASE 0

The project team discussed that a temporary intersection will be constructed in summer 2020 to maintain access at 200 N/400 N during the U.S. 89 excavation & lowering. The concept below is one of two being explored. The project team explained that they are also exploring an option south of the existing intersection. More information will be provided as plans are confirmed

PHASE 1

***Traffic is maintained in the green area and work is occurring in the orange area.*

PUBLIC OUTREACH + COMMUNICATION CHANNELS

OUTREACH
