RECOMMENDED CHANGES IN THE STATE ROUTE SYSTEM

Whereas in keeping with the State Road Commission plan to assign State Statutory Route Numbers to the Interstate System and whereas a portion of the Interstate System from north of Brigham to Elwood is to be open to traffic very soon, the following State Route Number changes are necessary:

THEREFORE BE IT RESOLVED, that the location of State Route 1 be revised as an interim designation subject to the approval of the Legislature, to follow the proposed Interstate line from the junction with State Route 84 near Hot Springs northerly, via the proposed Interstate 15 to the Utah-Idaho State Line near Woodruff, Idaho. BE IT ALSO RESOLVED, that the State Route 84 be extended from its present termini near Hot Springs to follow the old alignment of State Route 1 to Second South Street in Brigham City and thence following the existing location of State Route 41 from Second South Street in Brigham via Corinne and Haws Corner to a junction with State Route 1 east of Riverside.

BE IT ALSO RESOLVED, that State Route 41 be deleted as a State Route and that State Route 85 be extended from its present termini near the mouth of Brigham Canyon following the old alignment of State Route 1 northeasterly, via Mantua, Logan, Smithfield, and Richmond to the Utah-Idaho State Line, with a stub connection from a junction with State Route 84 at Second South Street in Brigham City easterly, to a junction with State Route 85 near the mouth of Brigham Canyon.

Upon the adoption of the aforementioned recommendations, the State Route System mileage will increase 33.3 plus or minus miles which is the mileage for the Interstate System through the area of which 10.6 miles will be existing between Brigham City and Elwood and the remaining miles will be added as the Interstate System is constructed through the area.
BE IT RESOLVED by the Utah State Road Commission that there be
assigned as an interim designation the following State Route Statutory
Numbers as sections of the Interstate System are taken over for main-
tenance and that these State Routes be described as follows:

junction with Interstate Route No. 15 north
of Salt Lake City.

AND BE IT FURTHER RESOLVED that the routes requiring a re-designation of
number will be made in accordance with the statewide numbering plan.

Approved: August 20, 1962

SUBJECT: Transfer of Roadways Bypassed by New Construction

DATE: November 5, 1973

Will you provide for the transfer of new frontage roads and bypassed existing roads in South Utah and North Juab counties. These resulted from construction on interstate project I-15-5(3)228, I-15-6(18)241 from 2 miles south of Juab-Utah County line to South Santaquin.

Two roads are in Utah County:

A frontage road on the westerly side of I-15 beginning at the Juab County line on existing U.S. 91 and extending northerly on the existing alignment to P.T. Station 113+70.97 then extending northerly on a new constructed roadway to Station 167+00 on existing Utah County Collector Road No. 131. This road is approximately 1.20 miles long.

A frontage road on the easterly side of the I-15 South Santaquin interchange beginning at Station 0+00 at a point 902 ft. south of the interchange crossroad and extending northerly to station 26+39. This road connects to existing roads which are probably on the Utah County system.

In Juab County the existing road (U.S. 91) from the Utah County line extending southerly 2.37 miles has been bypassed and is to be transferred to Juab County.

Copies of letters from Utah and Juab County officials are attached.

DATE:     July 15, 1975

TO       : B. Dale Burningham, Chief Research Engineer
FROM     : Edwin E. Lovelace, District Director

SUBJECT: Transfer of Bypassed Roadway

The newly constructed section of Interstate 15 between North Nephi and Two Miles south of the Juab, Utah County Line, Project I-15-5(3)228 1st Contract, and S-0274(2) was opened to traffic on July 15, 1975.

It is proposed that the old roadway, S.R. 41 (Temporary I-15) be transferred to Juab County and Mona Town. Agreements signed by the appropriate officials are enclosed. These were effective on June 30, 1975 and were appropriate for execution on that day by the officials of the State Road Commission. There has been some delay in getting the documents to you, but it is believed that they are still appropriate.

The construction also provided a new connection from I-15 to Mona Town. This roadway replaces an existing road which was under the jurisdiction of Mona Town and Juab County. This new road will now be a part of the State Road System.

Will you provide for the transfer of these roadways?

The information available here shows that the section of S.R. 41 (Temp. I-15) within Mona Town is 1.27 miles long. The remaining portion of S.R. 41 which is bypassed and is to be transferred to Juab County is 8.86 Miles long.

The Mona Connection which is to be S.R. 54 occupies existing roads. A section 0.30 miles long was in Mona Town. The remaining 0.8 miles was previously a Juab County road.
