DESCRIPTION OF RESOLUTION CHANGE

(A). Realignment/New Alignment - From Orangeville and Orangeville Junction.

(B). Relocation/New Alignment - From Sanpete County Line easterly in Emery County.
RESOLUTION

State Route 29 - New Location Due to Reconstruction on New Alignment

WHEREAS, with the completion of Project S-0335 (1) has resulted in the re-alignment of the section of State Route 29 between Orangeville and Orangeville Junction in Emery County.

It has been recommended by Mr. Joseph G. Addair, District Engineer, that State Route 29 be revised as an interim designation subject to the approval of the Legislature, to follow the alignment on new location between Engineer Stations 88 + 82.05 and 125 + 11. This action will result in a decrease of 0.22 mile in the State Route System.

NOW, THEREFORE, the State Road Commission, after considering the aforesaid route change, adopts the following road revision as an interim designation subject to the approval of the Legislature:

Route 29 be transferred to follow the alignment on new location that portion of roadway between Engineer Stations 88 + 82.05 and 125 + 11, and the old alignment between stations be transferred to the jurisdiction of Emery County.

SUBJECT: S-0335(1) Orangeville to Orangeville Junction

When the construction of the above named project was made in 1962, the road was re-located North of the old highway between Engineer's Stations 68+04.05 and 125+11.00 PT. The old highway should revert to the County for maintenance purposes.

Would you take the proper steps in having this business taken care of so the County will assume their responsibilities for this section of highway.

WHEREAS, with the completion of various projects resulting in the re-
construction of new roadway on new alignment and

WHEREAS, portions of the old alignment will no longer serve as road-

Commissioner
TO: Mr. Dale B. Burningham  
Chief Research Engineer, Research Section  
FROM: Mr. W. E. Nickelson  
District Engineer  
SUBJECT: Status of Old Roads  
I-80-4(8)190 Wahsatch to the Wyoming State Line  
F-001-8(2) Bear River Bridge East of Corinne  

The status of the old abandoned roads on the subject projects have been reviewed and following is my recommendation:

1. F-001-8(2) The old road should remain as it is at the present time. It lies on right-of-way that we have by agreement from the railroad. In addition, the old road and bridge are intended to be used for a stock trail for crossing the Bear River.

2. I-80-4(8)190 Three sections of the old road are no longer within the N/A lines, as itemized below, and are of no further use to us for roadway purposes. These three sections should revert to private ownership.

TO: B. Dale Burningham, Chief Research Engr.  DATE: January 25, 1965
FROM: J. Q. Adair, Dist. Engr.
SUBJECT: Road Deletions

We have listed the following projects that have been constructed in the last couple of years and sections of road that should be deleted from our system:

S-0294(1) Dragerton (Culvert & Approaches)
F-028-3(6) Woodside Northerly
NR-29(1) 7 Miles W. of Orangeville (Joe's Valley)
NS-338(1) Huntington Northerly - Mohrland Connection
NR-24-2(1) Huntington North on SR-10

The NR-24-2(1) Huntington North Section has bypassed the location where the Huntington Reservoir is being constructed by the Bureau of Reclamation. A portion of this right-of-way has probably been acquired by the Bureau of Reclamation people.
