Route 162

Updated: November 2008

1955 Description:
From Eden Junction on Route 39 northerly via Liberty to Forest Boundary.

1963 Description:
From Eden Junction on Route 39 northerly to Liberty. This route was **approved by the Legislature**.

1965 Description:
**(A) Scanned** From Eden Junction on Route 39 northerly to Liberty and thence northerly to Avon.

1966 Description:
From Eden Junction on Route 39 northerly via Liberty and Avon to Route 101 near Hyrum east city limits. **(B) Scanned** 9/23/66. (From Avon northerly to Hyrum transferred from Route 163).

1967 Legislature:
From Eden Junction on Route 39 northerly to Liberty, thence northerly via Avon to Route 101 in Hyrum.

1969 Description:
From Eden Junction on Route 39 northerly via Eden (including Eden Bypass) to Liberty (Weber County Line to Paradise taken off State System Paradise to SR-101 in Hyrum re-designated SR-165 by the **1969 Legislature**.)

1975 Legislature:
The south leg of SR-162 to Eden re-designated SR-89.

1975 Description:

1979 Legislature: Description remains the same.
1981 Legislature: Description remains the same.
1983 Legislature: Description remains the same.
1985 Legislature: Description remains the same.
1986 Legislature: Description remains the same.
1987 Legislature: Description remains the same.
1988 Legislature: Description remains the same.
1990 Legislature: Description remains the same.
Route 162 Cont.

*(C) Commission Action November 2, 1990:
Deleted SR-162 from the State System of Highways, with the beginning portion reassigned as SR-158 from the junction with SR-39 to the junction with old SR-166.

1992 Legislature:
Withdrawn, as a State Highway Designation.

2004 Legislature:
From Route 191 at Bluff easterly to the Utah-Colorado state line.

2005 Legislative Description:
From Route 191 in Bluff easterly to the Utah-Colorado state line.

2006 Legislature: Description remains the same.
2007 Legislature: Description remains the same.
2008 Legislature: Description remains the same.

Route 162

COUNTY/VOLUME & RESOLUTION NUMBER

A. Cache Co. 1/135   B. Cache Co. 1/138   C. Weber Co. 8/18
D. San Juan Co. 11/5

DESCRIPTION OF RESOLUTION CHANGE

(A). Extension - From Liberty northerly to Avon.

(Following alignment of SR-163.)

(C). Deleted - SR-162 in its entirety from the State Highway System.

(D). Addition/Re-designation- From Junction SR-191 in Bluff easterly to the Utah-Colorado state line.
The 1965 Legislature designated the following roads as additions to the State System of Highways:

State Route 162 was extended from its present termini in Liberty northerly to Avon.

State Route 242 was extended from its present termini at Hardware Ranch in Blacksmith Fork Canyon, southerly to a junction with State Route 39.

State Route 130 was extended from its present termini in Minersville southerly to a junction with State Route 1 (US-91) north of Cedar City.

Maintenance responsibility for the aforementioned roads will commence May 1, 1965.

Transmitted herewith are location maps indicating maintenance section numbers and temporary State Route Log Sheets indicating the additions of these roads. The new State Route Log Sheets will be forwarded to you as soon as they can be reproduced.
Effective May 1, 1965

RESOLUTION

State Route 162 and 163

WHEREAS, it has been recommended by Mr. W. E. Mickelson, District Engineer, that State Route 163 be deleted from the State System of Highways and that State Route 162 be extended from its present termini at Avon, to traverse State Route 163 and,

WHEREAS, by this action continuity in the State Route System would be maintained and would be advantageous as a guide to anyone using this roadway.

NOW THEREFORE, be it resolved as follows:

1. That State Route 162 be extended from its present termini in Avon northerly via present State Route 163 to a junction with State Route 101 near Hyrum east city limits and by this action deleting the designation of State Route 163.

2. That by this action there will be no change in the State System of Highway mileage.

3. That Exhibit "A" attached herewith illustrating the action taken herewith is hereby incorporated as a part of this submission.

Dated this 22nd day of September, 1966.

Secretary
Memorandum

UTAH STATE DEPARTMENT OF HIGHWAYS

DATE: August 15, 1966

TO: B. Dale Burningham, Chief Research Engineer

FROM: W. E. Mickelson, District Engineer

District No. One

SUBJECT: State Route No. 162 and No. 163 - Cache and Weber Counties

At the time the Avon to Liberty road was turned over to us for maintenance it was given the State Route No. 162. This was an extension of the road that then covered from Pine View Dam to Liberty. The present termini then for S.R. 162 is from Pine View Dam to Avon. Our present route S.R. 163 goes from Hyrum - Jct. of 163, 101 and 242 to Avon.

Since most people would go the whole route as a short cut from Ogden Valley to Cache Valley, we propose that S.R. 163 be deleted from the system and that S.R. 162 termini read from Pine View Dam to the Cache County line, road section 29-162-1, maintained by Shed No. 92, Huntsville, and that road section 03-162-1, Weber County line to Jct. 101, 162 and 242, near Hyrum, maintained by Shed No. 82, Wellsville. This change would simplify the record-keeping and more clearly describe the road for our maps and would not change the maintenance responsibility of the sheds.

     Ogden Office File
David L. Greenwood, Chairman
Utah County Commission
99 South Second East
American Fork, Utah

Dear Mr. Greenwood:

The construction of Price Canyon in Carbon County on Highway 50 & 6 has been under construction for the past two years and we have been using the detour road across what is known as the Park. The detour or Park Road traverses from Colton on the west side to Bamberger Monument on State Road 33 on the east end. This road traverses through part of Utah County and Carbon County.

Before we started using this road as a detour we built the highway to a 24 foot width, oiled the surface, and replaced all structures with CMP pipe. The road is in very good condition and moneys that were spent on this road were from primary moneys and there were no other moneys involved. This road is not on the primary system or a State secondary system or a County secondary system, but its present status is a County road. This road is used by allotment holders that are in the area, people that are out for a scenic drive, and by people from Carbon, Utah and Duchesne Counties.

The Department of Highways will have no further need for this road for a detour and therefore no maintenance moneys will be spent in the future. Therefore, you may wish to keep this road in a good condition by providing maintenance by the County forces. Carbon County is also being notified pertaining to the section of road that is in Carbon County, for the purpose of future maintenance. The attached map will help to orient the location of this...
road. All the traffic that was traveling on Highway 50 & 6 is now directed through Price Canyon as of July 1, 1966.

Yours truly,

UTAH STATE DEPARTMENT OF HIGHWAYS

J. O. Adair
District Four Engineer

August 2, 1966

Walter H. Maynard, Chairman  
Carbon County Commission  
30 West 200 North  
Price, Utah

Dear Sir:

The detour road that was used during the time of the construction of Price Canyon has no further need as a detour for the Department of Highways. Therefore we are requesting that the portion of the road in Carbon County be maintained by County forces.

This road is not on the primary system, State secondary system, or County secondary system, but yet it is still a County road. I am sure you are well aware of the condition of the road before we improved it and the standards to which it was built before it was used as a detour. This road is in good condition and should be maintained by County forces in the future. The traffic has not used this road as a detour since July 1, 1966, except for two or three hours during the dedication ceremony on July 28, 1966. We will change the signs on the east end, otherwise the road will be left as it was constructed.

We are attaching a map showing the section of road mentioned in this letter.

Yours truly,

UTAH STATE DEPARTMENT OF HIGHWAYS

J. Q. Adair  
District Four Engineer

RESOLUTION
Deletion of State Routes 166, 162 and 169
Addition of State Route 158

 Whereas, Section 27-12-27 of the Utah Code 1990, provides for the addition or deletion of highways from the State Highway System and,

 Whereas, the District One Director has recommended that roadway traversing northerly from a junction with current State Route 166 and current State Route 162 to the parking lot of Powder Mountain Ski Resort be placed on the State System of Highways in exchange for deletion of a portion of State Route 162 and all of State Route 166, also State Route 169 from the State Highway System and,

 Whereas, the proper authorities of Weber County, Liberty Town, and Eden Town have been notified of these revisions and have reviewed the aforementioned recommendation and concur with the District One Directors proposal of State Route transfers and

 Whereas, the appropriate staff of the Transportation Planning Division has reviewed the request by the District One Director and concurs with the aforementioned request and recommends, that portion of SR-162 traversing from the junction of SR-39 to the current junction of SR-166 become a portion of new State Route 158 along with the deletion of State Route 169.

NOW THEREFORE, Be it resolved as follows:

1. Roadway traversing northerly from a junction with current State Routes 166 and 162 to the parking lot at Powder Mountain Ski Resort a distance of 6.98+ miles be placed on the State Highway System as a portion of State Route 158. The Functional Class designations will be retained along with the Federal-aid System designation to a point where Federal-aid Secondary 569 becomes proposed roadway near Wolf Creek Country Club a distance of 1.51+ miles. The remainder of new State Route 158 will not be placed on the Federal-aid System.

2. Roadway currently residing as State Route 162 from the junction of State Route 39 traversing northerly to the junction of current State Route 166, be incorporated as the beginning portion of new State Route 158 a distance of 4.33+ miles and the remainder of SR-162 will be deleted from the State System of Highways. The functional Class designation along with the Federal-aid Secondary designation will be retained. The portion of roadway that traverses from the jct. with current SR-169 to the jct. of current SR-162 will not be placed on the Federal-aid Secondary System.

3. Roadway currently residing as State Route 166 will be deleted from the State System of Highways in its entirety from the junction of SR-39 east of Huntsville to the junction of current SR-162 north of Eden a distance of 5.95+ miles with the jurisdiction and maintenance responsibilities transferred to Weber County. Functional Class will remain Major Collector and the Federal-aid Systems will become Local Federal-aid Secondary 570 and 569 respectively.
4. Roadway currently residing as State Route 169 will be deleted from the State System of Highways in its entirety from the junction of current SR-162 to the junction of current SR-166 a distance of 0.57± miles with the jurisdiction and maintenance responsibilities transferred to Weber County. Functional Classification will remain Major Collector with the Federal-aid Secondary System becoming a portion of Local Federal-aid Secondary 569.

5. The aforementioned changes, additions, and deletions will be activated upon approval from the Transportation Commission and the Federal Highway Administration where it is applicable.

6. The accompanying letters, Notification of System Change, and map be made part of this resolution.

Dated on this 2nd day of November 1990

Attest:
Secretary
October 19, 1990

Mr. John Reeves, P.E.
Weber County Engineer
2510 Washington Blvd.
Ogden, UT 84401

Dear John:

Attached are four copies of "Notification of Highway System Change in Utah" request for transfer of SR-169 from the State System to Weber County Road System as previously discussed with you.

The transfer of this road and the rest of the Powder Mountain Road transfer proposal will be discussed in the Transportation Commission Meeting on November 2, 1990 in Salt Lake City. I will give you the time of this meeting next week after the agenda has been completed.

It is also UDOT's understanding that the Snowbasin Road SR-225 will be transferred to Weber County after the new road from Trappers Loop is constructed to Snowbasin Ski Resort. The new road will come on the State Systems when SR-226 goes on the County system.

Please return three of the signed copies and I will take them to Salt Lake so the Resolution of Transfer can be prepared.

Sincerely,

Ogden, UT 84401

Dear John:

Attached are three copies of forms that need to be signed by the County Commission Chairman for the transfer of the Powder Mountain Road and SR-166/162 roads as shown on the attached maps.

Please return two copies and we will send them to Salt Lake for Transportation Commission action.

Sincerely,

Dyke M. LeFevre, P.E.
District One Director

Engineer for Transportation Planning

SUBJECT: Re-designate Portions of SR-163 & SR-262 to new SR-162 in San Juan County

This proposed action was presented to the Transportation Commission on February 20, 2004 and it was discussed that this action could be a Department Administration action not requiring a resolution by the Commission.

The following action has been taken to make the state route numbers run synonymous with US route designation. SR-163 in the portion traversing easterly from the Junction of SR-191 to the Junction of SR-262, a distance of 14.6± miles, be assigned as a portion of new SR-162. Also, SR-262 from milepost 22.7 to 40.0± will become a portion of new SR-162.

The new SR-162 will begin at Junction SR-191 traversing easterly to the Utah/Colorado State Line for a distance of 32.0± miles. The function classification will be Minor Arterial.

A map showing the location of these highways is attached.

RESOLUTION

Addition State Route 163
San Juan County

WHEREAS, on September 14, 1984, the Utah Transportation Commission voted unanimously that upon completion of Federal-aid Secondary project RS-0408(2), the roadway from Bluff to Montezuma Creek be added to the State Highway System, and

WHEREAS, Federal-aid Secondary project RS-0408(2) has been completed and the roadway is open to traffic, and,

WHEREAS, portions of this roadway were built on new alignment and San Juan County desires that portions of the old alignment remain on the county "E" Road System.

NOW, THEREFORE, be it resolved as follows:

That the roadway from State Route 191 near Bluff easterly, coincident with FAS Route 408, to State Route 262 at Montezuma Creek be added to the State System of Highways and be designated as State Route 163.

That this action is in accordance with Section 27-12-27 of the Utah Code Annotated, 1953.

That by this action State Highway System mileage will increase 14.0+ miles and San Juan County "E" System mileage will decrease 7.7+ miles.

That the accompanying map and a portion of the Utah Transportation Commission minutes of September 14, 1984 be hereby incorporated as part of this resolution.

Dated this 18th day of April, 1986

Commissioner
San Juan County Request

Commissioner Taylor explained that the request from San Juan County is big. He said he discussed it with their Commission at length and has taken a very critical look at the request. They have requested turning the Class B System over to the State. He also said that Carbon County presented their list to the Governor yesterday.

Commissioner Taylor said some of the points have merit, but overall the requests for transfers in San Juan County are not justified. He recommends that the road from Bluff to Montezuma Creek be transferred to the State Highway System. UDOT's staff recommends deleting SR-262 from the State Highway System, but Commissioner Taylor doesn't agree because SR-262 needs a lot of work.

The motion was made by Commissioner Taylor that out of the package we recommend to the legislature that the road from Bluff to Montezuma Creek be placed on the State Highway System and that we reject the rest of the San Juan County request. He noted there are other roads that have merit. They include the road from Aneth to Ismay and Ismay to Cortez, Colorado. He suggested keeping an eye on that section and working closely with Colorado in a cooperative effort when they are ready. Another one to keep in mind is the road from US-163 to Oljato. Commissioner Church seconded the motion.

Howard Leatham said that he understands that Bluff to Montezuma Creek will be worked on under a Federal Aid Secondary Project to be let in the near future, and he recommended that it not be put on the State Highway System until that is done. At the time it is complete, we can put it on the State Highway System. Voting was unanimous that:

At the completion of the Federal Aid Secondary Project, the road from Bluff to Montezuma Creek will be added to the State Highway System.

Interstate Signing

Representative Haze Hunter said that as one representative in the State and from the House of Representatives as a whole, he appreciates the job being done by the Transportation Commission and the Department of Transportation.

Representative Hunter remarked that the State of Utah depends on the tourist. They are trying to get them off the Interstate onto outlying roads where they can spend more time in the area. He feels that Iron County at Cedar City is inadequately signed. There is one sign on the south and nothing from the north for Cedar Breaks. They are requesting better signing be

Marva

Clayton Wilson visited with Dal Hawks, and I visited with Hugh Kirkham, who both agree with the change on SR-163 and SR-262. I attached a map with the changes. The yellow should remain designated as SR-262, and the blue should receive a new route number.

This will reduce the number of sign faces that will need to be changed. It will also provide a constant highway number to the better and more traveled route.

Let me know how I can help with this.

Wayne
