DESCRIPTION OF RESOLUTION CHANGE

(A). Addition - Drivers Testing Course at Browning Armory in South Ogden.
RESOLUTION
State Route 298

WHEREAS, to clarify maintenance responsibility for those roads at the Browning Armory in South Ogden that are used for the purpose of a physical test for automotive drivers ability, and

WHEREAS, those roads that are to be used for driving tests have been coordinated with the Utah State Department of Public Safety, Drivers License Division and Mr. Bert Taylor, District Engineer, and

WHEREAS, these roads are considered as a part of the State System of Highways.

NOW THEREFORE, be it resolved as follows:

That the roads at the Browning Armory in South Ogden that are used for the purpose of a physical test for automotive drivers ability are a part of the State Road System and designated as State Route 298,

That the parking areas be considered part of this route for maintenance responsibility,

That by this action State Highway System mileage will increase 1.0 + mile,

That the map attached be hereby incorporated as a part of this submission.

Dated this 27th day of December, 1972.

Attention: Mr. Blaine J. Kay  

Dear Mr. Helland:  

On April 18, 1969 the State Road Commission designated the driver's test course at the Utah State Fairgrounds as State Route 297 (the purpose being for snow removal).  

We now have a driver testing course at the Browning Armory area in Weber County and will need your services for snow removal. For us to request sufficient monies in the budget and then contract with the Department of Highways for snow removal service would cause additional bookkeeping and inter-account billing. This seems needless, in that any funding for the service comes from the same course.  

I am writing to see if the State Road Commission would designate the driver testing course in Weber County as part of the state road system. I would appreciate it very much if you would discuss this with the Commissioners and obtain their views.  

Sincerely,  

Raymond A. Jackson  
Commissioner
