Route 300

Updated: December 2008

1972 Description: (Dixie State Park)

From the southwest boundary of Snow Canyon State Park northerly via Snow Canyon to State Route 18, a distance of 5.0+ miles. Approved by the State Road Commission April 14, 1972.

1983 Legislature: Description remains the same.
1985 Legislature: Description remains the same.
1986 Legislature: Description remains the same.
1987 Legislature: Description remains the same.
1988 Legislature: Description remains the same.
1990 Legislature: Description remains the same.

*(B) Commission Action September 6, 1991:
State Route 300 in its entirety, will be re-designated as a portion of State Route 8 when it is actuated according to the stipulations contained in resolution dated Sept. 6, 1991.

1992 Legislative Description: Description remains the same.
From the southwest boundary of Snow Canyon State Park northerly via Snow Canyon to Route 18.

1993 Legislature: Description remains the same.
1994 Legislature: Description remains the same.
1995 Legislature: Description remains the same.
1996 Legislature: Description remains the same.

**(B) June 15, 1996: Actuated Portion of Resolution dated September 6, 1991:
Withdrawn SR-300 as a State Route Designation in its entirety and reassigned this route as a portion of SR-8.

* Refers to resolution index page following.
** Refers to Commission Action described on September 6, 1991
Route 300

COUNTY/VOLUME & RESOLUTION NUMBER

A. Washington Co. 4/32
B. Washington Co. 9/19

DESCRIPTION OF RESOLUTION CHANGE

(B). Deletion/Re-designation - Deleted SR-300 in its entirety, and re-designated it a portion of SR-8 when resolution is actuated.
RESOLUTION

State Route 300

WHEREAS, Section 63-11-20, Utah Code Annotated, 1953, as amended, relates that: "All roads connecting state parks with federal, state or county highways or city streets where the title thereto is in the state are parts of the state highway system and are to be maintained by the state. The state road commission is authorized to construct and maintain roads within state parks subject to approval of locations and design by the commission through its director", and

WHEREAS, it is the desire of the Utah State Road Commission and the Utah State Division of Parks and Recreation to define responsibility for the administration of roads at state parks, and

WHEREAS, it is agreed between the State Road Commission and the State Division of Parks and Recreation that certain roads meet the criteria set forth in Section 63-11-20, UCA, 1953, as amended, and

WHEREAS, those roads at state parks that are part of the State System of Highways should be identified by a number.

NOW THEREFORE, in accordance with Section 63-11-20, UCA, 1953, as amended, it is hereby resolved as follows:

That the roadway from the southwest boundary of Snow Canyon State Park northerly via Snow Canyon to State Route 18, a distance of 5.0 + - miles, be identified as State Route 300, and be deleted from the State Collector Road System,

That the letter from the Washington County Commission relating their concurrence in the deletion of the aforementioned roadway from the State Collector Road System, as the Utah Code supersedes the designation of this roadway, be hereby incorporated as a part of this submission,
RESOLUTION
State Route 300
Page 2

That the map attached illustrating the action taken herewith be hereby incorporated as a part of this submission.

Dated this ______________ day of April, 1972.

STATE ROAD COMMISSION OF UTAH

Chairman

Vice-Chairman

Commissioner

Commissioner

Commissioner

ATTEST:

Secretary
Washington County
COURTHOUSE
ST. GEORGE, UTAH 84770

April 12, 1972

Mr. Paul Gilgen
State Road Commission
State Capitol Building
Salt Lake City, Utah 84114

Dear Mr. Gilgen:

It is the opinion of the Washington County Commission that the road in the Dixie State Park should be deleted from the Collector Road System and be placed on the State Road System, for construction and maintenance.

Yours very truly,

[Signature]
Melvin T. Bowler, Chairman
Washington County Commission
April 25, 1972

Mr. Harold J. Tippetts, Director
Parks and Recreation Division
1596 West North Temple Street
Salt Lake City, Utah 84104

Dear Mr. Tippetts:

Subject: Designation of State Routes 300, 301, 302, 303 and 304 in Utah State Parks

Effective April 14, 1972, the State Road Commission of Utah adopted resolutions to designate those roadways described in the attached resolutions as a part of the State System of Highways.

Attached are copies of the resolutions and location maps.

Very truly yours,

L. R. Jester, P.E.
Chief, Systems Planning Div.

October 31, 1991

Mr. E. H. Findlay, CPA
Executive Director of Transportation (07-TP)
Salt Lake City, UT 84119

Dear Mr. Findlay:

Functional Classification System Action No. 7,
FAS System Action No. 7, and FAU System Action No. 1

Reference is made to your October 22, 1991, request for functional
classification and Federal-aid system changes in Washington County
and St. George City. The system changes are approved as described
in your request and reflected on the accompanying maps.

A copy of each approved description sheet is enclosed for your
records.

Sincerely,

Donald P. Steinke, P.E.
Division Administrator

RESOLUTION

Additions, Deletions and Relocations
of Various State and Local Routes within
St. George, Santa Clara, Ivins and Washington County

Whereas, Section 27-12-27 of the Utah Code 1990 provides for the addition to or deletion from the State Highway System, and

Whereas, The Utah Highway Systems Study identified certain highways in Washington County which should change jurisdiction, and

Whereas, The Utah Transportation Commission policy requires that when a local agency desires an addition to the State System, they must come to a mutual agreement on the recommended changes in said study, and

Whereas, reconstruction of the East St. George Interchange has resulted in an extension of the current State Route 34, requiring that it be designated as to its jurisdiction, and

Whereas, the proper authorities of St. George City, Santa Clara City, the Town of Ivins and Washington County agree that final designations on SR-34, SR-281, SR-300 and SR-8 should be made at this time, and

Whereas, the appropriate staff of the Transportation Planning Division have reviewed the various recommendations of the District Five Director, and concur with the foregoing statements stipulated within this resolution.

NOW THEREFORE, be it resolved as follows:

1. Roadway known as St. George Blvd., "H" Line, Project IR-15-1(39)17 from Engineer Station 73+37 to Engineer Station 83+00, plus 98 feet to the easterly line of roadway known as River Road a combined distance of 0.20± miles be designated as a realignment of SR-34, changing the ending termini from the north bound on & off ramps SR-15 to the easterly curb line of River Road, altering the total mileage of said roadway to 2.16± miles. The realigned portion of SR-34 will remain functionally classified Principal Arterial to the north bound on and off ramps of SR-15, (I-15) and continue to be Federal-aid Primary 53, a distance of 2.04± miles. The remainder of realigned SR-34 will be functionally classified Urban Collector, a distance of 0.11± miles.

2. Roadway known as SR-281 (Dixie College campus road), will be deleted in its entirety from the State System of Highways and placed under the jurisdiction of St. George City. The functional classification will retain its present designations, with the portion traversing southerly from SR-04 to 600 South Street becoming local FAU-4001.

3. Roadway known as Snow Canyon Park Road which is currently designated as SR-300 will be redesignated as a portion of SR-3 from the southwest Park Boundary of Snow Canyon to the Jct. with SR-13 at the northeast section of Snow Canyon Park a distance of 4.03± miles.
Additions, Deletions and Relocations of Various State and Local Routes within St. George, Santa Clara, Ivins and Washington County

4. The various segments of roadway described in the following table will be placed on the State System of Highways when all conditions stipulated in exhibit 1, (which is incorporated into this resolution), have been completed, and will be numbered SR-8.

<table>
<thead>
<tr>
<th>Roadway</th>
<th>From/To</th>
<th>Length</th>
</tr>
</thead>
<tbody>
<tr>
<td>A. Sunset Blvd.</td>
<td>Jct. SR-18 traversing westerly to the St. George-Santa Clara City Boundary</td>
<td>1.27± miles</td>
</tr>
<tr>
<td>B. Santa Clara Dr.</td>
<td>St. George-Santa Clara City Boundary traversing northwesterly to County Road, a distance of 3.27 miles.</td>
<td>3.27± miles</td>
</tr>
<tr>
<td>C. Old Hwy 91</td>
<td>From the aforementioned County Road traversing northwesterly to 200 East Street in Ivins</td>
<td>0.85± miles</td>
</tr>
<tr>
<td>D. 200 East &amp; Center Streets in Ivins</td>
<td>200 East Street in Ivins traversing 3.27± miles northerly to Center Street, thence easterly, and northeasterly via Center Street to Snow Canyon State Park Boundary</td>
<td>4.33± miles</td>
</tr>
<tr>
<td>E. Snow Canyon Park Rd.</td>
<td>Snow Canyon State Park Boundary traversing northerly to the Jct. of SR-18</td>
<td>4.33± miles</td>
</tr>
</tbody>
</table>

The combined mileage of all segments that will encompass SR-8 totals 12.39± miles. This roadway will continue to be functionally classified Minor Arterial from SR-18 to the St. George northwest urban boundary, Major Collector from the St. George northwest urban boundary to 200 East Street in Ivins. From 200 East Street in Ivins to its ending termini at the Jct. of SR-18 in the northeast portion of Snow Canyon State Park will be functionally reclassified Major Collector and placed on the Federal-aid Secondary System numbered 616. That portion of roadway which is currently residing as FAU-4002 and FAS-416 will retain their current Federal-aid System status. The mileage reported for FAU-4002 will decrease 0.67± miles and increase 0.67± miles on FAS-416 due to an urban boundary change approved by FHWA on July 8, 1991.

5. This resolution will be acted upon approval of the Transportation Commission, where applicable the Federal Highway Administration, and completion of stipulations described in Exhibit 1.

6. The accompanying Exhibit 1, Memorandum, Notification of Highway System Change Proposals, and maps be made part of this resolution.

EXHIBIT 1

SR-281, which is the road system around Dixie College, will be taken off the State Highway System. SR-34, St. George Blvd., will be added to the State Highway System from I-15 to River Road. In addition the following roads and streets will be added to the State Highway System in the defined segments as the roads are constructed to State Standards. A plan shall be submitted for each road showing the right of way and documentation supporting the map. Utility agreements, showing the rights and obligations UDOT will assume, shall be provided.

Segment 1 - Roadway A, Sunset Blvd.

Sunset Blvd. (FAU-4002), both the completed segment and the portion currently being designed by Creamer and Noble, and Santa Clara Drive as currently being designed by Rosenberg Associates to the standards of the street to the east. This segment starts at SR-18 (Bluff Street) and proceeds about 2.55 miles west of SR-18.

Segment 2 - Roadway B, C, & D, Santa Clara Dr., Old Highway 91 & 200 East in Ivins

Santa Clara Drive and 200 East Street in the Town of Ivins from the end of Segment 1 to the intersection of 200 East Street and Center Street. This segment of road is about 3.9 miles long and passes through Santa Clara City (2.0 miles), Washington County (0.45 miles), and the Town of Ivins (1.47 miles).

Required improvements include:

1. Structural pavement strength determined by traffic volume, trucks, and soils. Current anticipated surfacing is 2.5 inches of bituminous surface course overlay and where additional width is required, 5 total inches of bituminous surface course over 4 inches of untreated base course.

2. Increased width depending on traffic volumes, right of way, and geometrics. Santa Clara Drive and old Highway 91 will have two 12 foot traffic lanes and two 8 foot shoulders with side slopes flatter than 5:1, except fill slopes over 5 feet but less than 15 feet may be as steep as 4:1 and fill slopes over 15 feet may be as steep as 3:1. 200 East Street shall have two 12 foot traffic lanes and two 6 foot shoulders with side slopes flatter than 4:1.

3. Improve the taper angle at 200 South Street so the length is 40 times the centerline offset or provide adequate reverse curves. Improve intersections to meet at angles of between 75 and 105 degrees at these locations: Hamblin Road, Road west of Swiss Village, Old Farm Road, Private Road at west city limits. Eliminate parking in the right of way at the Chevron Station west of City Hall. Positive elimination of West Arrowhead Trail at Santa Clara Drive intersection and determine which road the home access will be from.

4. Drainage improvements west of 3365 West. Extend culvert for irrigation facility across the right of way west of Swiss Village.
Segment 3 - Roadway D & E Center Street Ivins & Snow Canyon Drive

Center Street and Snow Canyon Drive from the end of Segment 2 to Snow Canyon State Park Boundary. This section of road is about 2.2 miles long and passes through the Town of Ivins (1.3 miles) and Washington County (0.4 miles).

Required improvements include:

1. Grade the roadway prior to paving to achieve uniform grades with adequate sight distances at grade changes.
2. Structural pavement strength determined by traffic volume, trucks, and soils. Anticipated surfacing is 2.5 inches of bituminous surface course on 4 inches of untreated base course.
3. Increased width depending on traffic volumes, right of way, and geometrics. Two 11 foot traffic lanes and two 6 foot shoulders.
4. Improvements in some intersection angles. The intersection of Center Street, Snow Canyon Road, and Docena Drive is unacceptable.
5. Drainage improvements. Provide drainage culverts for the water currently flowing over the road north of the fitness center.
Memorandum

TO: Clint Topham, P.E.
   Director of Planning

FROM: J. R. Chamberlain, P.E.
   District Director

SUBJECT: Request for Resolution for Jurisdictional Changes to State Highway System

DATE: April 22, 1991

Attached are the signed Notification of Highway System Change for all of the various entities involved in the proposed changes. Would you please sign the forms and if you concur with the recommendations, have the resolution prepared for Commission action.

The changes involved are as follows:

1. Extending of St. George Blvd. (SR-34) from I-15 interchange to the intersection of Cliffs Dr. and River Road, added to the State System.

2. All of SR-281 (Dixie College Road) would be deleted from the State System and jurisdiction assigned to St. George City.

3. Sunset Blvd. to Santa Clara Drive to 200 East in Ivins to Center St. and Center St. to the end of SR-300 is to be added to the State System.

We would like the resolution to make Items one and two effectively immediately upon acceptance by the Commission. Item three would be added to the State System in phases as is indicated in Exhibit 1, attached to each of the notification forms, and if possible, we would like the resolution to indicate that this will take place as the work is completed without further Commission action.

Because of all of the entities involved, the maps prepared and attached to the notification may be a bit hard to follow.

Thank you for your assistance, and if you have any questions regarding these changes, you could contact either Kleston Laws or myself at the District Office.

JRC/kd

Map 1
Redesignate SR-300
as Portion of SR-8
Addition SR-8
Urban Bndry Change
Becomes FAS-416
Dear Council Members:

We have received confirmation that the stipulations governing inclusion of a portion of roadway known as Sunset Boulevard from the junction of SR-18 to Dixie Downs Road have been completed and this portion of roadway traversing the incorporate limits of St. George will be actuated as a portion of SR-8 as described in a resolution passed by Transportation Commission Action, dated September 16, 1991.

The maintenance responsibility henceforth is intrinsic to the jurisdiction of The Utah Department of Transportation. Description of this new State Route will be incorporated and become a part of the 1996 Legislative Highway Bill.

For your information, the portion of roadway traversing the boundaries of Snow Canyon State Park is also actuated as a portion of SR-8. The remaining portions of roadway designated to become incorporate of SR-8 will be actuated when these portions are constructed to State Route standards and all criteria described within stated resolution have been completed.
MEMORANDUM  UTAH DEPARTMENT OF TRANSPORTATION

DATE: Sept. 6, 1995

TO: Dana Meier, P.E.
   Maintenance Engineer
   Cedar City District

FROM: Glen M. Nielsen
       Transportation Records Manager

SUBJECT: Actuation of portions of SR-8

I have sent the attached letter to the St. George City Council, informing them of the actuation to the State System of Highways of that portion of SR-8 encompassed in their jurisdiction. You may want to keep this copy of that letter for your records. The actuation, of the portions of SR-8 that we discussed over the phone will be mentioned at the first available Transportation Commission meeting and SR-8 will be included in the next Highway Bill presented to the Legislature.
MEMORANDUM

TO: Dana Meier, P.E.
    Cedar City,
    District Engineer

FROM: Glen M. Nielsen
      Transportation Records Manager

SUBJECT: Actuation of Portions of SR-8

DATE: June 5, 1996

I have received word that all criteria regarding the actuation of portions of SR-8 have been satisfied by the respective entities. Therefore we will officially actuate the portion of SR-8 that begins at the Jct. SR-18 (Bluff Street) and traverses to Santa Clara Parkway which is the beginning location of Project No. STP 3184(1)3.

We will also actuate that portion of SR-8 that traverses the boundaries of Snow Canyon State Park, thus deleting SR-300 as a State Route designation.

At this time all signing, (if they are not in place) indicating the above mentioned portions of this state route should be placed according to standards.

The remainder of roadway that will become a portion of SR-8 will be actuated at the time when all criteria defined in The Transportation Commission Resolution passed Sept. 6,91 is completed.

If there are any questions or uncertainties regarding this actuation please contact me at the Program Development Division, Phone 965-4349.

From: Jim Naegle
To: SRC0FS03.GNIELSEN
Date: 6/4/96 9:01am
Subject: Sunset Blvd. in St. George onto State System.

I spoke with Dana Meier this morning, and St. George has meet their obligation for the crack sealing. Our record showers they have paid the $20,000 for the signal modification.
Dana suggested that we add up to the end of the project which Santa Clara just completed. As I understand it this will be State Route 8.
If I can be of further help please let me know.
