

Submit Completed Application – HOW TO GUIDE

When the Pre-Application Meeting process is completed, and the applicant has assembled all of the required documents to submit a completed application, the rest of the online application process is really easy to complete. When you are ready to submit a completed application follow this simple steps:

STEP 1

ONLINE PERMIT SYSTEM LOGIN

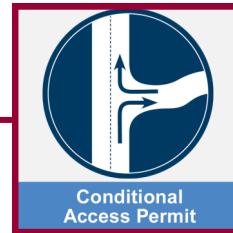

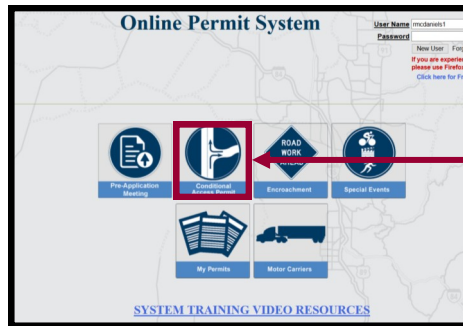

www.udot.utah.gov/go/OnlinePermitSystem

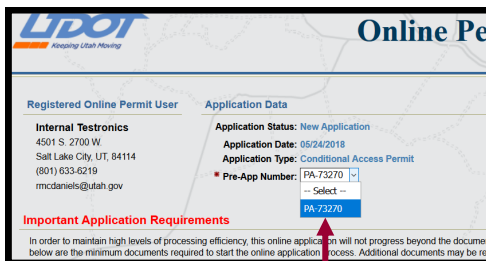

Click on the link above. Login to the Online Permit System (top right of page).

STEP 2

CLICK CONDITIONAL ACCESS PERMIT

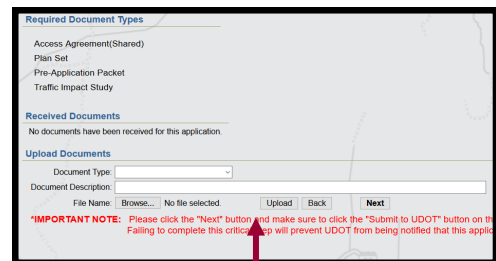

STEP 3

Select the appropriate Pre-Application Number from the dropdown list. This automatically transfers the application data from the pre-application meeting process into the application.

STEP 4

Upload the minimum required documents as listed. **Important Note:** Anything less than professionally prepared documents will slow the application process! See [Application Submission Best Practices](#) document for more.

STEP 5

SUBMIT TO UDOT

Simply click the “Next” button and the “Submit to UDOT” button.
