

**Supplemental Specification
2017 Standard Specification Book**

SECTION 00555M

PROSECUTION AND PROGRESS

Delete Article 1.13 and replace with the following:

1.13 WORK SUSPENSIONS

- A. The Engineer may give written notice to suspend all or any portion of work for any reason at any time during the contract for the mutual benefit of the Department and the Contractor. Contract time will not accrue during a work suspension. Do not resume work until notification is received from Engineer.
 - 1. Submit a request to the Engineer for a contract adjustment for suspensions or delays considered anomalous.
 - a. Submit the request within seven calendar days of the notice to resume work.
 - b. Contract adjustment is made only for requests submitted within the established time frame.
 - 2. The Department does not allow adjustments to the contract to the extent that performance would have been suspended or delayed by any other cause or for which an adjustment is provided for or excluded under any other contract term or condition.
 - 3. Time charges will not accrue during work suspensions.
 - 4. Contract adjustment is made as specified in Section 00777 if both parties agree that the suspension:
 - a. Increased the cost or time required for the performance of the contract.
 - b. Resulted from conditions beyond control of the Department or the Contractor.
 - c. Was not caused by normal weather.
 - d. Was not due to failure to correct conditions unsafe for the workers or the general public

- B. Contractor may pursue a claim for additional compensation or contract adjustment if there is disagreement with this Article.

- C. Maintain Traffic during a suspension
 - 1. Prepare the project for traffic flow during anticipated work suspensions.
 - 2. Maintain all required traffic control devices.
 - 3. The Department performs snow removal activities on temporary roadways and portions of the project during work suspensions.

4. Repair or replace all work or materials lost or damaged during the suspension.
5. Remove work or materials used for temporary maintenance and complete the project as though the work had been continuous and without interference.
6. The Department pays for maintenance required by events beyond control during work suspensions at contract prices or as extra work.

Delete Article 1.14 and replace with the following:

1.14 STOP WORK ORDERS

- A. Stop Work Order:
 1. The Engineer has the authority to stop work on a project, wholly or in part, when it is determined that the Contractor does not:
 - a. Correct conditions unsafe for the project personnel or the public.
 - b. Perform work properly or comply with contract provisions.
 - c. Comply with the Engineer's orders.
 2. Contract time will continue to accrue during a stop work order. Do not resume work until notification is received from Engineer.
 3. The Engineer will provide a written Stop Work Order, within 24 hours of verbal notification, that describes the reason for ordering work to stop and what actions need to be taken or how conditions need to change before work may resume.
 4. The Engineer will notify the Contractor when to resume work.
 5. Time charges will continue to accrue during periods of stopped work.
- B. Work may be stopped for any of the following reasons:
 1. Contractor's failure to comply with the contract.
 2. Contractor's failure to keep insurance coverage according to Section 00820
 3. Contractor's failure to provide workers or equipment
 4. Work is being performed when unsuitable weather or soil conditions exist that are detrimental to the quality of the finished product
 5. Conditions exist that threaten the safety of the workers, public or nearby property.
