ATMS Design Manual of Instruction

Table of Contents

List of Figures and Tables iii

List of Acronyms and Abbreviations iv

Chapter 1: Introduction 1

 1.1 Purpose 1

 1.2 Design Guidelines..... 1

 1.3 Scope..... 1

 1.4 Collaboratory Documents 1

 1.5 Assumptions..... 1

Chapter 2: Design Scope and Process 2

 2.1 Design Philosophy 2

 2.2 Required Information..... 2

 2.3 Project Delivery Network..... 3

 2.4 ATMS Design QC Checklist 3

 2.5 AT Series Drawings and Specifications..... 3

 2.6 TMD Involvement 3

Chapter 3: ATMS Devices and Infrastructure Design..... 6

 3.1 Conduit and Junction Boxes..... 6

 3.2 ATMS Communications..... 8

 3.3 Electrical Power Design..... 14

 3.4 ATMS Cabinets 22

 3.5 Traffic Monitoring Cameras (CCTV) 25

 3.6 Non-Intrusive Detection (NID) 33

 3.7 Variable Message Signs (VMS) 36

 3.8 Ramp Metering Systems (RMS) 39

 3.9 Electronic Toll Collection System (ETC)..... 41

 3.10 Roadway Weather Information Systems (RWIS) 43

Chapter 4: Maintenance Considerations 47

- 4.3 Vehicle Access 47
- 4.4 Personnel access 49
- 4.5 Work areas 50
- 4.6 Lid Access/Storage 50
- 4.7 Drainage 51
- 4.8 Snow removal/storage 51

Chapter 5: Plan Preparation 52

- 5.1 Plan Sheet Development Standards 52
- 5.2 Included Sheets and Examples 52

Appendix A: Example Plan Sheets

List of Figures and Tables

Table 1.0 -- Related UDOT documents with external reference links	1
Figure 3.0 -- Typical Conduit Configuration in Type II and Type III Boxes.....	8
Figure 3.1 -- Typical shared fiber optic infrastructure	10
Figure 3.2 -- Typical fiber optic architecture configuration	11
Figure 3.3 -- Typical fiber drop and splice to ATMS cabinet	12
Figure 3.4 -- Overhead service drop via pole mounted transformer.....	17
Figure 3.5 -- Underground Service Pedestal	17
Figure 3.6 -- Cabinet and supplemental disconnect	18
Figure 3.7 -- Supplemental disconnect on H-frame	19
Figure 3.8 -- Typical ATMS power service arrangement	19
Figure 3.9 -- Typical pole mount cabinet	23
Figure 3.10 -- Typical ground mount cabinet.....	23
Figure 3.11 -- Ramp meter cabinet orientation	24
Figure 3.12 -- Non-lowering pole with positioner CCTV	27
Figure 3.13 -- Pole mounted positioner CCTV mount.....	27
Figure 3.14 -- Typical CCTV installation.....	28
Figure 3.15 -- Typical CCTV installation at an intersection	29
Figure 3.16 -- Lowering pole and dome camera	29
Figure 3.17 -- Camera location on outside of horizontal curve	31
Figure 3.18 -- Camera location schematic	31
Figure 3.19 -- Camera placement at interchange	32
Figure 3.20 -- Camera location for freeway overpass.....	32
Figure 3.21 -- Typical NID installation	33
Figure 3.22 -- NID pole mount	34
Figure 3.23 -- Typical NID components.....	34
Figure 3.24 -- NID Lane Assignments.....	36
Figure 3.25 -- Typical Type 1 VMS.....	37
Figure 3.26 -- Location of VMS cabinet in relation to sign.....	38
Figure 3.27 -- Typical ramp metering installation.....	39
Figure 3.28 -- Typical ETC toll plaza.....	43
Figure 3.29 -- Typical RWIS equipment.....	44
Figure 3.30 -- Typical RWIS installation.....	44
Figure 4.1 -- Maintenance pullout for pole access with barrier break	48
Figure 4.2 -- Maintenance pullout for pole access -- no barrier	49
Figure 4.3 -- Box on a slope.....	50
Figure 4.4 -- Cabinet on a slope	51

List of Acronyms and Abbreviations

ATMS	Advanced Traffic Management System
CCTV	Closed Circuit Television (Traffic Monitoring Cameras)
DMOI	Design Manual of Instruction
DTM	Digital Terrain Model
ETC	Electronic Toll Collection
ITS	Intelligent Transportation Systems
MUTCD	Manual on Uniform Traffic Control Devices
NEC	National Electrical Code
NID	Non-Intrusive Detector
PDN	Project Delivery Network
QA	Quality Assurance
QC	Quality Control
RMS	Ramp Metering System
RWIS	Roadway Weather Information System
SDDM	Structures Design and Detailing Manual
TMD	Traffic Management Division
TOC	Traffic Operations Center
UDOT	Utah Department of Transportation
USP	Underground Service Pedestal
VMS	Variable Message Signs
