Uinta Basin Transportation Improvements
2018 CONSTRUCTION PROJECT MAP

PROJECT LEGEND

1. U.S. 40; Daniels Canyon Westbound Passing Lane (MP 30.8-34.2)
   Contact: 855-740-8740; us40@utah.gov
2. U.S. 40 & 250 West HAWK Signal in Duchesne (MP 86.3-86.4)
   Contact: 855-740-8740; us40@utah.gov
3. U.S. 40; Passing Lanes between Bridgeland and Myton (MP 97.2-106.1)
   Contact: 855-740-8740; us40@utah.gov
4. U.S. 40 & 5750 East New Signal in Fort Duchesne (MP 119.7)
   Contact: 855-740-8740; us40@utah.gov
5. S.R. 45; MP 14 to Glen Bench Road Rehabilitation (MP 14.0-19.7)
   Contact: udotregion3@utah.gov
6. S.R. 87; U.S. 40 to S.R. 35 Resurfacing (MP 0.0-5.7)
   Contact: 877-495-4240; udotregion3@utah.gov
7. S.R. 121; Rehabilitation in Two Locations (MP 31.2-32.9; MP 1.6-15.4)
   Contact: udotregion3@utah.gov
8. S.R. 149; Improvements from U.S. 40 to Dinosaur National Monument (MP 0.0-4.2)
   Contact: 435-760-1428; SR149@utah.gov
9. U.S. 191; National Forest Station to Jones Hollow Rehabilitation (MP 260.3-273.0)
   Contact: 877-495-4240; udotregion3@utah.gov
10. U.S. 191; Indian Canyon Drainage Catch Basins (MP 265.0-290.0)
    Contact: udotregion3@utah.gov
11. U.S. 191; Stauffer Chemical to Red Loop Road Guardrail (MP 364.6-372.2)
    Contact: udotregion3@utah.gov
12. U.S. 191; Uintah/Daggett County Line to Greendale Junction Resurfacing (MP 378.3-387.3)
    Contact: 877-495-4240; udotregion3@utah.gov
13. U.S. 191; Dutch John Intersection Improvements (MP 395.7-396.3)
    Contact: udotregion3@utah.gov
2018 CONSTRUCTION INFORMATION

1. U.S. 40; Daniels Canyon Westbound Passing Lane (MP 30.8-34.2) This project will widen U.S. 40 to extend the westbound passing lane from Daniels Summit. The road will be reduced to one lane in each direction. In addition, the road will be intermittently reduced to one lane with a flagging operation to direct traffic as crews resurface.
   **Timeline:** Summer 2018

2. U.S. 40 & 250 West HAWK Signal in Duchesne (MP 86.3-86.4) Crews will construct a new High-Intensity Activated Crosswalk (HAWK) signal for pedestrians to cross U.S. 40 at 250 West in Duchesne. Traffic will be minimally impacted.
   **Timeline:** Spring 2018

3. U.S. 40; Passing Lanes between Bridgeland and Myton (MP 97.2-106.1) Crews will construct both an eastbound and westbound passing lane on U.S. 40 between Bridgeland and Myton. Other improvements include shoulder widening and removing and replacing asphalt between Antelope Creek and the Duchesne River. The road will be reduced to one lane in each direction with intermittent roadway closures.
   **Timeline:** Summer 2018

4. U.S. 40 & 5750 East New Signal in Fort Duchesne (MP 119.7) Crews will construct a new traffic signal at U.S. 40 and 5750 East in Fort Duchesne to improve safety and access for the community and specifically Eagle View Elementary School. Traffic will be minimally impacted.
   **Timeline:** Spring 2018

5. S.R. 45; MP 14 to Glen Bench Road Rehabilitation (MP 14.0-19.7) UDOT will remove and replace two inches of asphalt on approximately six miles of S.R. 45. The road will be reduced to one lane during daytime hours, Monday through Friday, with a flagger to direct traffic through the work zone.
   **Timeline:** April-June 2018

6. S.R. 87; U.S. 40 to S.R. 35 Resurfacing (MP 0.0-5.7) Crews will resurface S.R. 87 between U.S. 40 and S.R. 35 north of Duchesne. The road will be reduced to one lane with a flagger to direct traffic through the work zone. This work may take place during daytime and/or nighttime hours.
   **Timeline:** April-May 2018

7. S.R. 121; Rehabilitation in Two Locations (MP 31.2-32.9; MP 1.6-15.4) This project is a continuation from last year. Crews will complete the removal and replacement of two inches of asphalt on S.R. 121 in Uintah and Duchesne Counties. The work will take place during daylight hours, and the road will be reduced to one lane with flaggers to direct traffic.
   **Timeline:** Summer 2018

8. S.R. 149; Improvements from U.S. 40 to Dinosaur National Monument (MP 0.0-4.2) FHWA and UDOT are collaborating to widen travel lanes and shoulder widths, and to replace the Brush Creek Bridge. The road will be reduced to one lane with a temporary traffic signal at the bridge. In addition, one-way flagging will be in place at various other locations along the corridor. Work is scheduled Monday through Friday and weekends as needed during daytime hours. Visit www.udot.utah.gov/go/SR149 for more information.
   **Timeline:** Ongoing through May 2018

9. U.S. 191; National Forest Station to Jones Hollow Rehabilitation (MP 260.3-273.0) This project will remove one inch of asphalt, lay three inches of cold-in-place recycled asphalt, and complete the road with a one-and-a-half-inch overlay and chipseal. Construction will take place Monday through Friday during daylight hours for approximately two months, and the roadway will be reduced to one lane with flaggers to direct traffic.
   **Timeline:** June-August 2018

10. U.S. 191; Indian Canyon Drainage Catch Basins (MP 265.0-290.0) This project will improve drainage along U.S. 191, including a culvert replacement in one location. The roadway will be intermittently reduced to one lane with a flagger to direct traffic.
    **Timeline:** July-August 2018

11. U.S. 191; Stauffer Chemical to Red Loop Road Guardrail (MP 364.6-372.2) The project includes replacing sections of damaged guardrail along a seven-mile stretch of U.S. 191 located north of Vernal beginning at Big Brush Creek. The roadway will be intermittently reduced to one lane with flaggers or a temporary signal to direct traffic.
    **Timeline:** Summer 2018

12. U.S. 191; Uintah/Daggett County Line to Greendale Junction Resurfacing (MP 378.3-387.3) This project will remove and replace two inches of asphalt on approximately nine miles of U.S. 191 in Daggett County. The road will be reduced to one lane during daytime hours, Monday through Friday, with a flagger to direct traffic through the work zone.
    **Timeline:** April-August 2018

13. U.S. 191; Dutch John Intersection Improvements (MP 395.7-396.3) This project will widen the intersection at U.S. 191 and South Boulevard in Dutch John to provide a southbound left-turn lane. Widening will also be extended northbound to Little Hole intersection to improve safety and sight distance for southbound through traffic. The road will be intermittently reduced to one lane with flaggers to direct traffic.
    **Timeline:** Summer 2018
