

Maintenance UTRAC Evaluation Criteria 2019

Importance: The Subject Area Evaluators will evaluate the Problem Statements per the criteria listed below as it relates to Importance:	
Section Total	Importance
20%	How is the proposed idea an improvement over existing products, methods, or procedures?
15%	How does the proposed idea support Maintenance goals and performance measures?
15%	How does the proposed idea support UDOT Strategic Goals, Core Values, and Emphasis Areas?
50%	Maximum percentage available for this section of the Problem Statement (out of 100).

Implementation: The Subject Area Evaluators will evaluate the Problem Statements per the criteria listed below as it relates to Implementation	
Section Total	Implementation
15%	How mature is the proposed idea? What stage of implementation is the idea?
15%	What is the anticipated timeframe to bring the proposed idea into implementation?
10%	What materials and resources are needed to execute and sustain implementation of the proposed idea?
10%	What challenges need to be overcome to implement the proposed idea? How will they be overcome?
50 %	Maximum percentage available for this section of the Problem Statement (out of 100).

Materials/Pavement UTRAC Evaluation Criteria 2019

Importance: The Subject Area Evaluators will evaluate the Problem Statements per the criteria listed below as it relates to Importance:	
Section Total	Importance
25%	How is the idea an improvement over existing products, methods, procedures?
25%	How does the idea support group goals and performance measures?
50%	Maximum percentage available for this section of the Problem Statement (out of 100).

Implementation: The Subject Area Evaluators will evaluate the Problem Statements per the criteria listed below as it relates to Implementation	
Section Total	Implementation
8.34%	What stage of implementation is the idea (theoretical, lab tested, prototype, field tested, proven in multiple settings, etc.)?
8.34%	What is the anticipated timeframe to bring the idea into implementation?
8.33%	How broadly does implementation of the idea apply to UDOT systems either geographically, administratively or both?
8.33%	What materials and resources are available to execute and sustain the implementation of the idea (manuals, guides, training)?
8.33%	What non-financial challenges need to be overcome to implement the idea and how they will be overcome?
8.33%	Level of Disruption
50 %	Maximum percentage available for this section of the Problem Statement (out of 100).

Performance Management/Data Analytics UTRAC Evaluation Criteria 2019

Importance: The Subject Area Evaluators will evaluate the Problem Statements per the criteria listed below as it relates to Importance:

Section Total	Importance
11%	How is the idea an improvement over existing products, methods, procedures?
15%	How does the idea support the UDOT Strategic Goals and performance measures?
15%	Bang for Buck - ROI
41%	Maximum percentage available for this section of the Problem Statement (out of 100).

Implementation: The Subject Area Evaluators will evaluate the Problem Statements per the criteria listed below as it relates to Implementation

Section Total	Implementation
4%	Implementation Plan
3%	What stage of implementation is the idea (theoretical, lab tested, prototype, field tested, proven in multiple settings, etc.)?
5%	How broadly does implementation of the idea apply to UDOT systems either geographically, administratively or both?
7%	What materials and resources are available to execute and sustain the implementation of the idea (manuals, guides, training)?
10%	What non-financial challenges need to be overcome to implement the idea and how they will be overcome?
15%	Level of Disruption
15%	How does it interface with existing software or systems?
59 %	Maximum percentage available for this section of the Problem Statement (out of 100).

Planning UTRAC Evaluation Criteria 2019

Importance: The Subject Area Evaluators will evaluate the Problem Statements per the criteria listed below as it relates to Importance:

Section Total	Importance
17%	Will the research lead to bettering our Planning Objectives and Process?
17%	How does the idea support UDOT Strategic Goals and Emphasis Areas
16%	How does the idea support Carlos' Top Ten
50%	Maximum percentage available for this section of the Problem Statement (out of 100).

Implementation: The Subject Area Evaluators will evaluate the Problem Statements per the criteria listed below as it relates to Implementation

Section Total	Implementation
25%	What is the anticipated timeframe to bring the idea into implementation?
25%	How broadly does implementation of the idea apply to UDOT systems either geographically, administratively or both?
50 %	Maximum percentage available for this section of the Problem Statement (out of 100).

Structures/Geotech UTRAC Evaluation Criteria 2019

Importance: The Subject Area Evaluators will evaluate the Problem Statements per the criteria listed below as it relates to Importance:

Section Total	Importance
50%	How important is the subject of the Problem Statement to UDOT?
50%	Maximum percentage available for this section of the Problem Statement (out of 100).

Implementation: The Subject Area Evaluators will evaluate the Problem Statements per the criteria listed below as it relates to Implementation

Section Total	Implementation
50%	Ability to and approach of implementation
50 %	Maximum percentage available for this section of the Problem Statement (out of 100).

Traffic Management / Safety UTRAC Evaluation Criteria 2019

Importance: The Subject Area Evaluators will evaluate the Problem Statements per the criteria listed below as it relates to Importance:

Section Total	Importance
12.50%	How is the idea an improvement over existing products, methods, procedures?
12.50%	How does the idea support group goals and performance measures?
12.50%	How does the idea support UDOT Emphasis Areas and Core Values?
12.50%	How does the idea support the UDOT Strategic Goals?
50 %	Maximum percentage available for this section of the Problem Statement (out of 100).

Implementation: The Subject Area Evaluators will evaluate the Problem Statements per the criteria listed below as it relates to Implementation

Section Total	Implementation
8.34%	What stage of implementation is the idea (theoretical, lab tested, prototype, field tested, proven in multiple settings, etc.)?
8.34%	What is the anticipated timeframe to bring the idea into implementation?
8.33%	How broadly does implementation of the idea apply to UDOT systems either geographically, administratively or both?
8.33%	What materials and resources are available to execute and sustain the implementation of the idea (manuals, guides, training)?
8.33%	What non-financial challenges need to be overcome to implement the idea and how they will be overcome?
8.33%	Level of Disruption
50 %	Maximum percentage available for this section of the Problem Statement (out of 100).

Public Transportation UTRAC Evaluation Criteria 2019

Importance: The Subject Area Evaluators will evaluate the Problem Statements per the criteria listed below as it relates to Importance:

Section Total	Importance
20%	How much does the idea improve existing products, methods, procedures, etc.?
15%	To what degree does the idea advance the regional or statewide transportation plans?
15%	Does the idea support UDOT Emphasis Areas (Integrated Transportation, Innovation, Collaboration, Quality, Education, Transparency) or UTA Strategic Areas of Focus (Customer Experience, Leadership and Advocacy, Access to Opportunity, Strategic Funding, Workforce of the Future)?
50%	Maximum percentage available for this section of the Problem Statement (out of 100).

Implementation: The Subject Area Evaluators will evaluate the Problem Statements per the criteria listed below as it relates to Implementation

Section Total	Implementation
20%	How easily can the idea be implemented (scale, cost, political feasibility, physical constraints, local control)?
15%	How broadly does the implementation of the idea apply to UDOT or UTA systems either geographically, administratively or both?
15%	Will education materials and resources be available to execute and sustain the implementation of the idea (manuals, guides, training)?
50 %	Maximum percentage available for this section of the Problem Statement (out of 100).
