March 12, 2013

To: Region Preconstruction Engineers, Region Program Managers, Statewide Portfolio Managers, UDOT Procurement
From: George Lukes, UDOT Design and Standards Engineer
Subject: Procurement Advertising Delivery Process

Over the last six months or so, the Project Delivery Team has partnered with Portfolio Managers and UDOT Procurement to formalize a process for projects that are delivered through Procurement rather than the UDOT Project Advertising Process.

I have attached two documents that establish UDOT’s Procurement Advertising Delivery Process and should be implemented immediately. As we have discussed in Project Delivery and Portfolio/Program Manager meetings, please distribute these documents to the appropriate Region, Central and TOC personnel.

In addition, these documents are posted or will be posted on the same web page as the UDOT Project Advertising Checklists http://www.udot.utah.gov/main/f?p=100:pg:0:::1:T,V:3706, . This can also be found at Inside UDOT | Project Development | Standards and Specifications | 2012 Standards | 2012 Project Advertising Checklists

If you have any questions or concerns, please contact George Lukes.
