

Monument Valley Roundabout

SR-163 & Monument Valley Road

San Juan County

Overview

A new roundabout configuration will replace existing dedicated left turn lanes where U.S. Highway 163 intersects with Monument Valley Road.

Benefits

This two-million dollar project will help during the busiest tourism peak times by eliminating the conflicts associated with left turns on a high speed rural highway.

It will provide traffic calming in this central location of services adjacent to the welcome center, medical facilities and high school.

It will also serve as a gateway landmark into the state from Arizona on this route.

Facts

- Currently Advertising for Bidders
- Construction: Fall 2019
- Value: \$ 2 million
