

5500 South/5100 West

IMPROVED

A UDOT Project

CONSTRUCTION NOTICE: Intersection Improvements Underway

The Utah Department of Transportation (UDOT) has begun work on a safety improvement project at the intersection of 5500 South and 5100 West in Hooper. The project will improve safety and traffic flow by adding turn lanes on 5500 South and replacing and lowering the canal box culvert to improve sight distance for drivers turning at the intersection.

▶▶ WHAT TO EXPECT

- ▶ Crews expect to maintain one lane of traffic in each direction on 5500 South through most of construction. Intermittent flagging operations may be necessary at times during off-peak hours.
- ▶ A full weekend intersection closure will be required for replacement of the canal box culvert.
- ▶ 5100 West will be closed on both north and south sides of the intersection to accommodate the work.
- ▶ Lanes will be narrowed through the intersection and motorists are advised to reduce speeds, watch for lane shifts and use alternate routes when travel is time-sensitive.

🕒 CONSTRUCTION SCHEDULE

See Closures and Detour Map on the reverse of this flier.

Early March: Preliminary utility relocations

Mid-March to Early June: Intersection reconstruction

March 13-16: Full intersection closure from 6 p.m. on Friday, March 13, to 5 a.m. on Monday, March 16 for removal and replacement of canal box culvert. Residential access will be maintained. Through-traffic will be detoured to 5100 South during the closure. Residents in the vicinity should expect night-time construction noise and lighting.

March 12 to Early June: 5100 West will be closed on both north and south sides of the intersection. Residential access will be maintained. Detours will be in place.

Early June: Substantial project completion

Please note that construction schedules are subject to change due to weather conditions, emergency situations, or equipment/supply issues. Updates will be posted to UDOT's project webpage: www.udot.utah.gov/go/hooper5500south.
