

Brigham Main

RENEWED

700 South to 620 North

CONSTRUCTION NOTICE:

Main Street Surface Sealing Begins May 21st

The Utah Department of Transportation (UDOT) advises residents, business and motorists of a pavement surface sealing project on Main Street (SR-13) from 700 South to 620 North. A microsurface seal will be applied, which is a very thin layer of asphalt placed over the existing roadway to seal the pavement and extend its life. The work involves both daytime and night operations and is weather-dependent. Construction on SR-13 north of 620 North is part of a separate UDOT project.

WHAT TO EXPECT

- Main Street will be reduced to one lane in each direction between 700 South and 620 North.
- Business and residential accesses will be maintained. During night-time microsurfacing operations, driveways may be closed for up to 30 minutes and cross-street accesses up to 12 hours to allow for the new material to cure.
- Parking on Main Street will not be permitted during construction.
- Noise and lighting impacts should be expected in residential areas during night-time operations.

TENTATIVE WORK SCHEDULE

The following are planned construction activities. Please note that due to weather conditions, emergency situations or equipment/supply issues, schedules are subject to change.

- **May 21 (day):** Lower utility manholes below the pavement surface to prepare for resurfacing
- **May 22 (day):** Rotomill and repave the intersection of Main Street/200 South, which will require full closure of the intersection during daytime hours
- **May 23-24 (night):** Microsurfacing cross-street accesses from 9 p.m. to 9 a.m., which will require intermittent cross-street closures during this timeframe
- **May 24-27 (night):** Microsurfacing mainline pavement from 9 p.m. to 9 a.m. nightly
**Construction will be suspended and lane restrictions will be removed for Memorial weekend.*
- **June 1 (day):** Raise utility manholes back to roadway surface grade
- **June 1-7 (day/night):** Place pavement markings and messages
- **June 8-17 (day/night):** Install roadway signs and update pedestrian signal at the intersection of Main Street/100 North
- **June 22 (day):** Final pavement striping
