# PROJECT PURPOSE & GOALS

## WHAT IS THE PURPOSE OF THE HEBER VALLEY BYPASS CORRIDOR PLANNING STUDY?

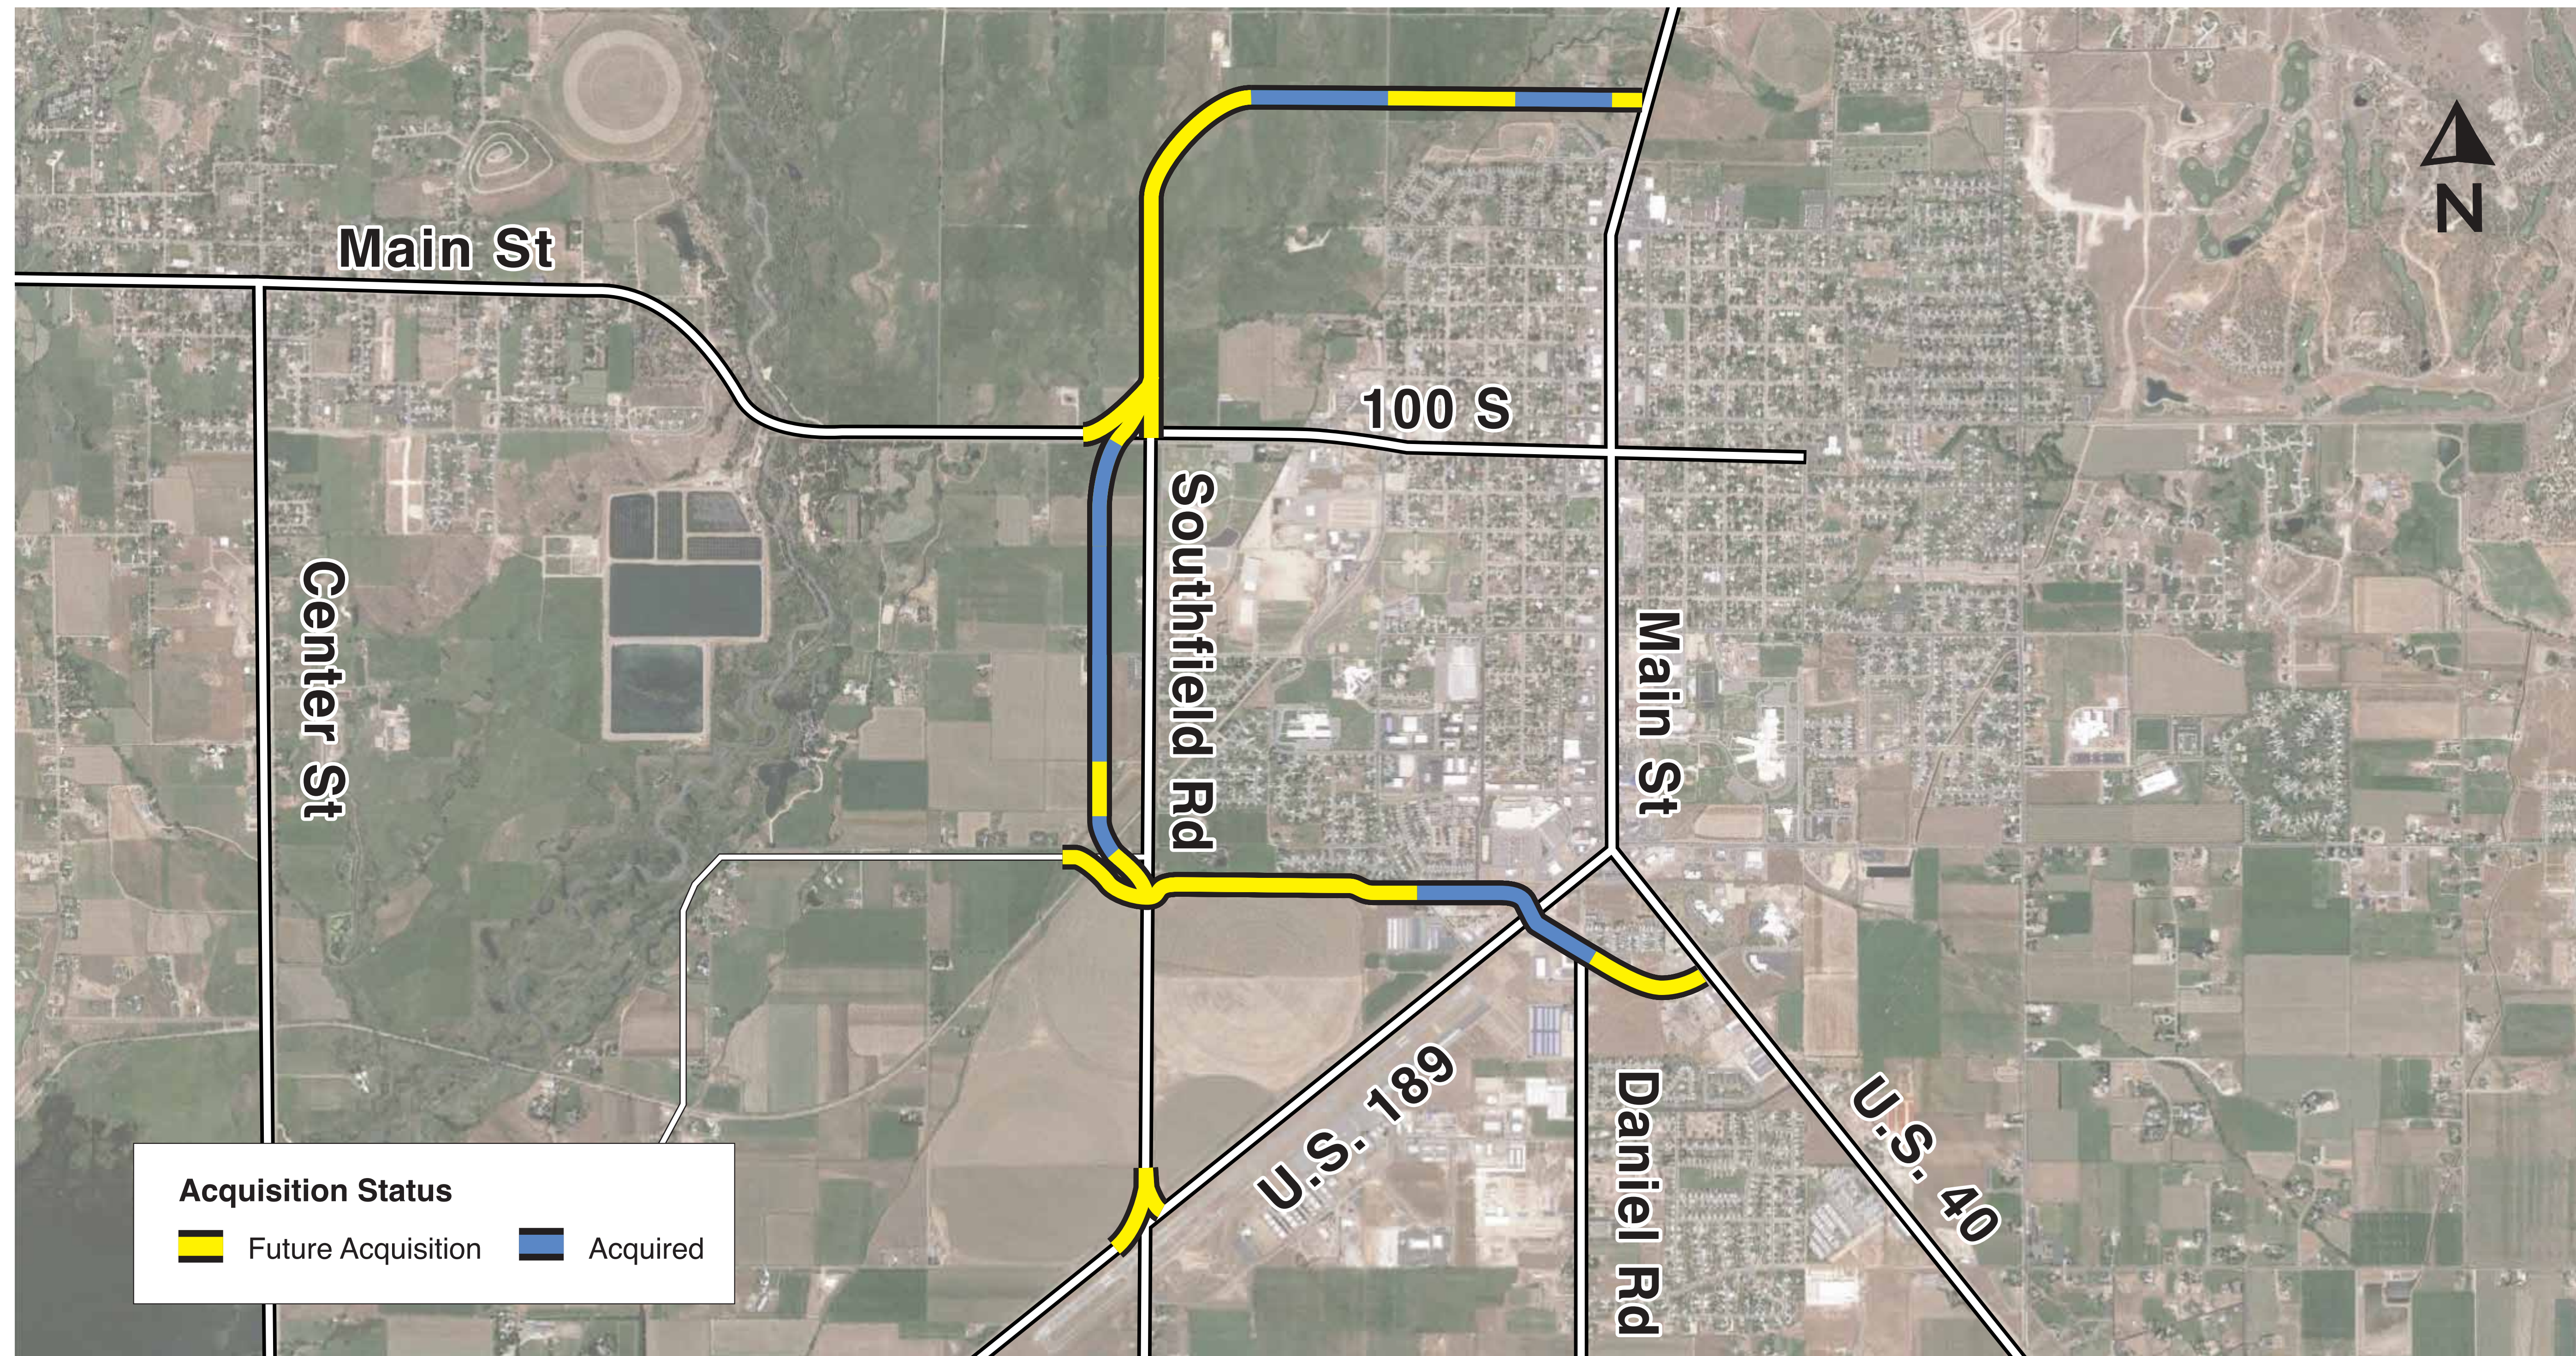

To address growth and traffic congestion, the Utah Department of Transportation (UDOT) and Heber City are conducting a planning study for the Heber Valley Bypass Corridor.

## WHAT ARE THE GOALS OF THE PROJECT?

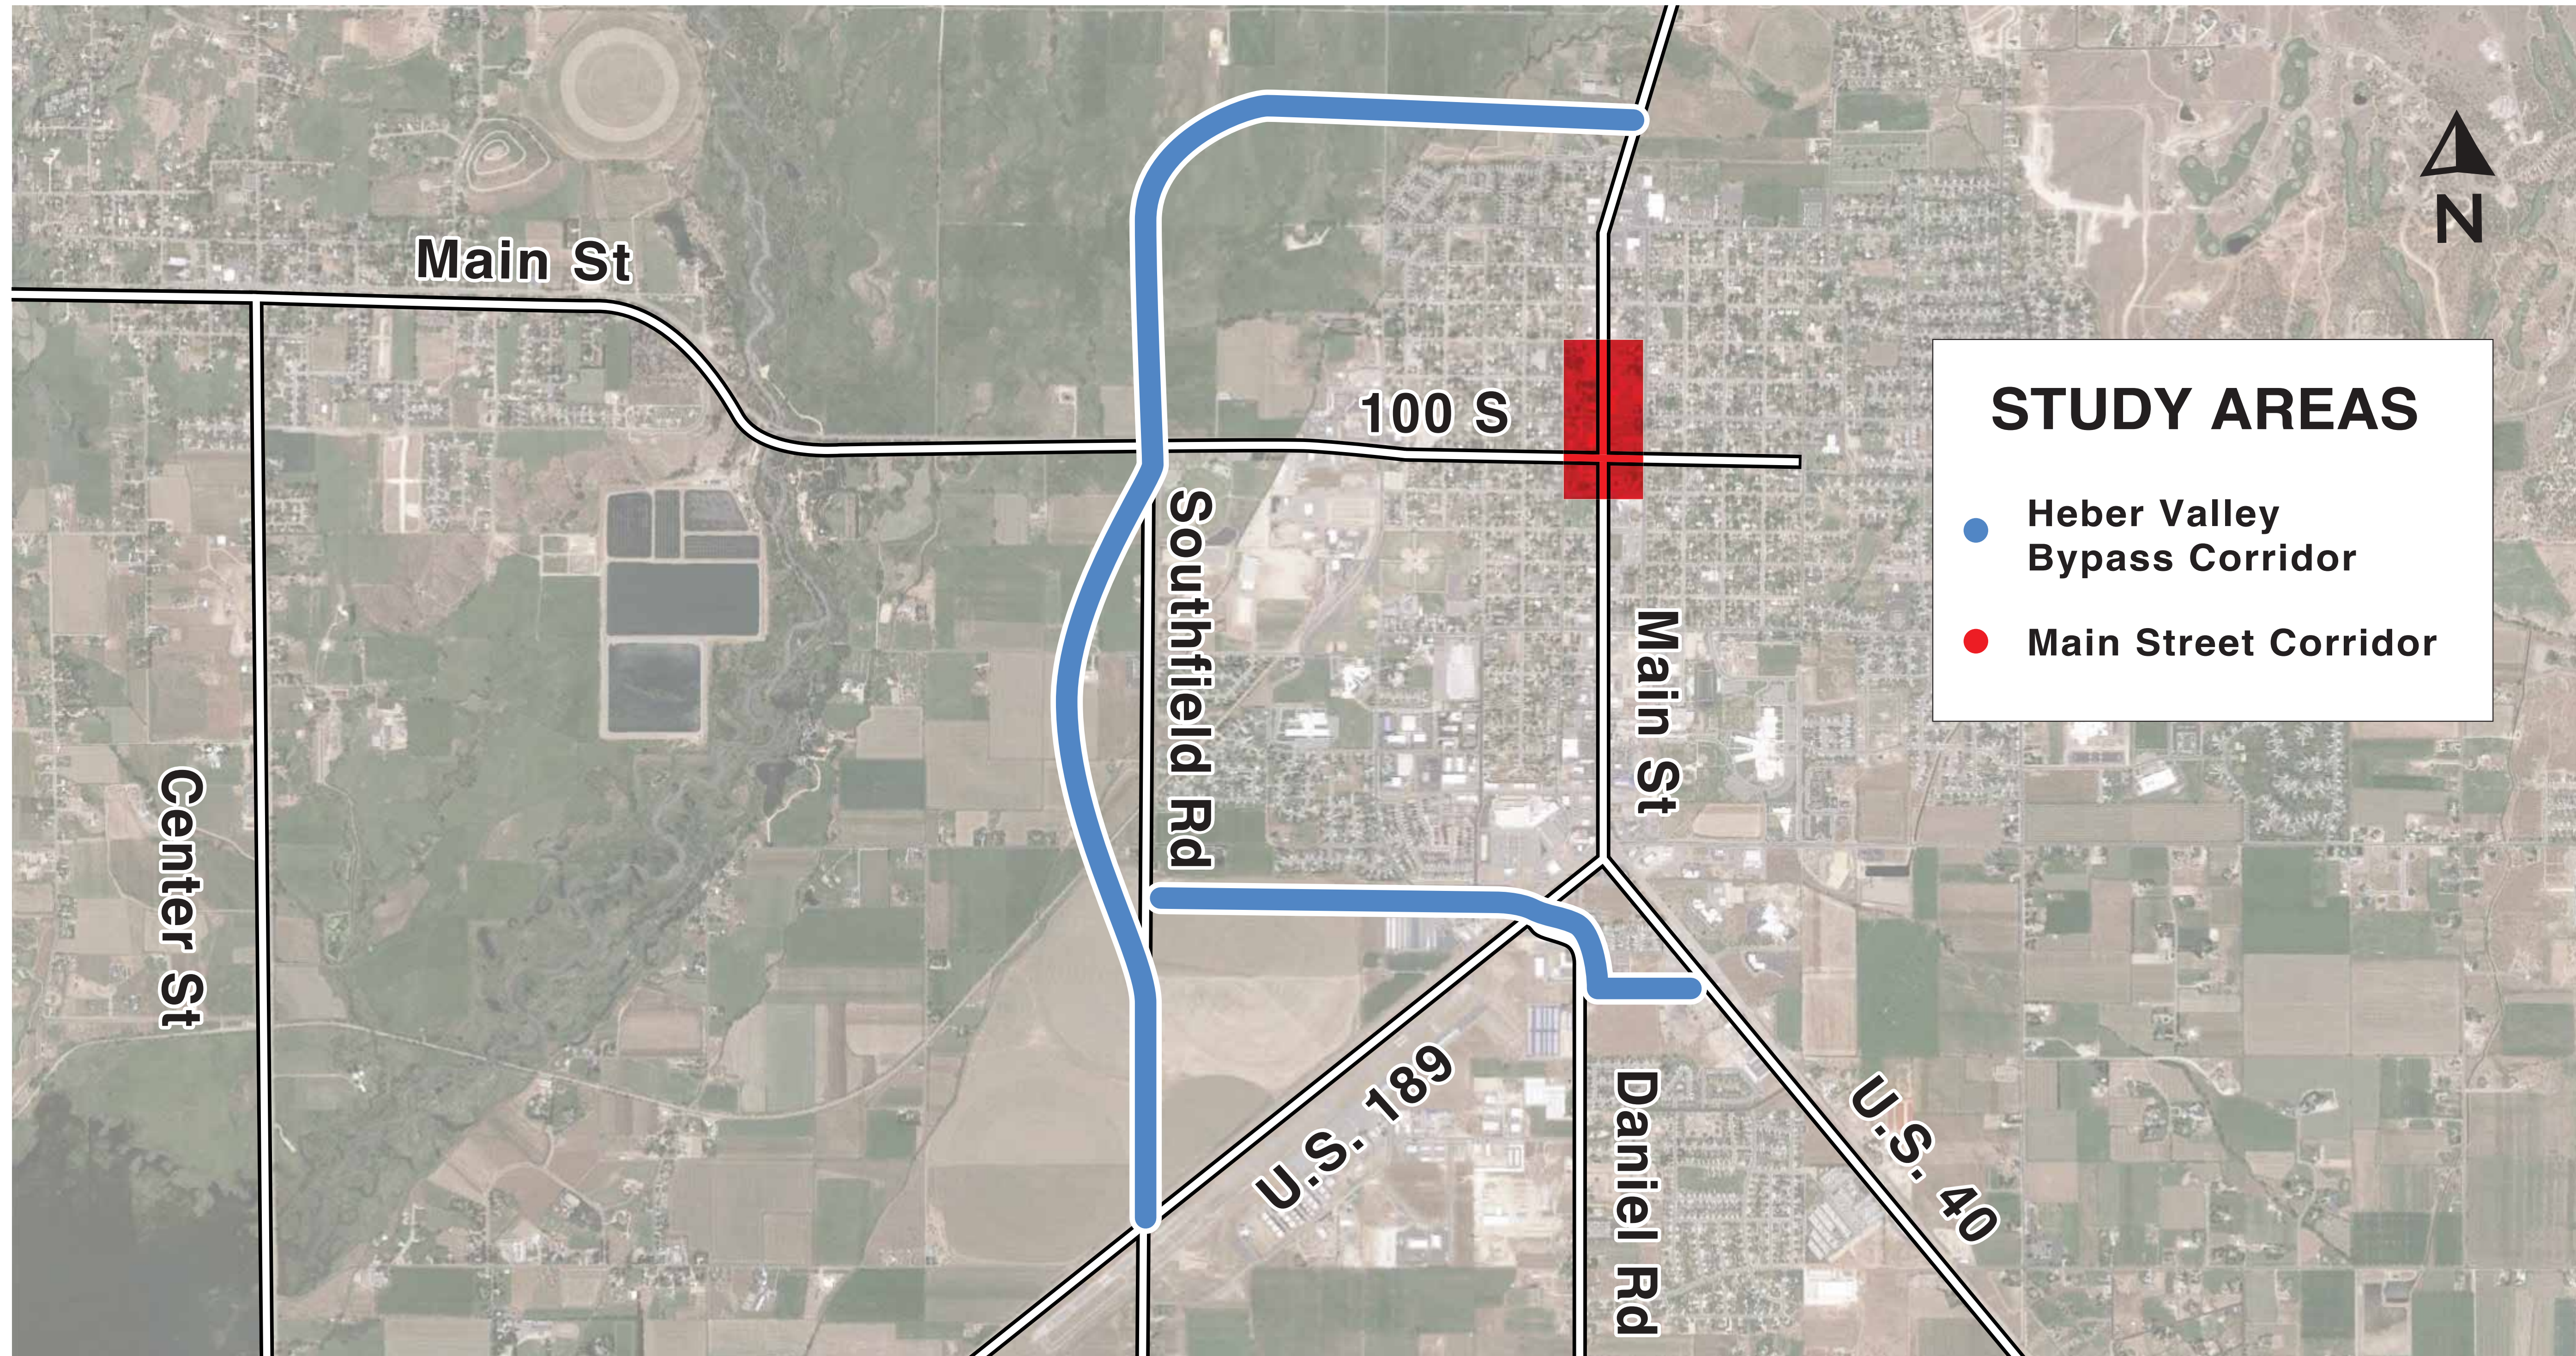

- To preserve efficient traffic operations on Main Street by reducing vehicle traffic.
- Bypass becomes a state road, so trucks could be restricted to the new route, away from Main Street.
