

Road Opening Celebration

The Utah Department of Transportation (UDOT) and Layton City are having a celebration for the official opening of Layton Crossing. The public is invited to come join in the festivities. Come hear city and state officials speak about the project, watch the official bridge opening, enter to win a diamond from Ari Diamonds, and support local businesses and food trucks.

Thank you to Wadsworth Brothers for building a quality project!

Project Overview

UDOT and Layton City are nearing completion on a new bridge across I-15 connecting 1425 North on the east and SR-126 (Main Street) on the west. Please see the map for other project improvements.

This new connection will improve east-west mobility in Layton, relieve traffic congestion at the Antelope Drive and Hill Field Road interchanges, and promote economic development in Layton's commercial area.
